

2 PURCHASE OF SKIP CONTAINERS (AN1-2017)

The Council provides a range of skip services to domestic and commercial customers as well as servicing the storage and movement of waste from council recycling centres and processing sites. A number of skip containers are now considered to be beyond economic repair and in need of replacement.

The skip containers can be obtained through the Scotland Excel Procurement Framework "Supply and Delivery of Waste Disposal Equipment 03/15". The skip containers recommended for purchase are from Skip Units, Sinfin Lane Industrial Estate, Derby and are detailed below:

- Supply four – 14 cubic yard demountable skip containers for the sum of £4,192
- Supply two – 20 cubic yard demountable skip containers for the sum of £5,300
- Supply three – 40 cubic yard demountable skip containers for the sum of £9,585

The Executive Director of Corporate Services advises that the total cost of £19,077 can be met from the allowances for Recycling and Waste Management in 2016/17 that are included within the Community Safety/Public Protection section of the General Services Capital Plan 2017-22. Committee are asked to approve the purchase of this equipment.
