

#### **4 INFORMATION TECHNOLOGY DEPARTMENT - POST OF CORPORATE GIS PROJECT MANAGER (AN107-2007)**

Reference is made to Article VI of the minute of meeting of this Committee of 13 December 2004, wherein it was agreed to establish the post of Corporate GIS (Geographic Information Systems) Project Manager, graded PO11-14, £35,904 - £38,478 for a period of three years, in the Planning and Transportation Department.

It has become apparent that there is a need for this post to be permanent and that it would be more appropriately based in the Information Technology Department.

The Committee is, therefore, requested to approve the establishment of the post of Corporate GIS Project Manager, graded PO11-14, £35,904 - £38,478. It is also requested that the post be relocated to the Information Technology Department.

The Head of Finance advises that the cost of these proposals would be £46,875 in a full financial year, and provision for the permanent costs is included in the Information Technology Revenue Budget.
