

3 PUBLIC SPACE CCTV MAINTENANCE (AN117-2002)

The existing contracts for the maintenance of the Public Space CCTV system are due to terminate in 2003. Discussions have been held with Perth & Kinross Council and Angus Council with Tay Road Bridge Joint Board regarding the possibility of combining the maintenance of each agency's CCTV system into a single contract which should lead to economies of scale.

The Committee is asked to approve the participation of Dundee City Council in a joint tendering process.

The tendering process insofar as Dundee City Council's share is concerned will be the subject of further reports to Committee.
