

3 DUNDEE CENTRAL WATERFRONT - NETWORK RAIL BRIDGE AGREEMENT (AN142-2011)

In order to progress the design and construction of this project, Network Rail require Dundee City Council to enter into a specific Bridge Agreement with them for the replacement of the weight restricted bridge at Tay Rail Station and the Tay Station Roundabout Bridge with a single combined bridge. This replacement bridge is required as part of the western boulevard of the Central Waterfront Development and the new plaza at Dundee Rail Station.

Dundee City Council require to meet the legal costs associated with this agreement estimated at £3,000. The Director of Finance advises that these costs can be met from the allowances within Tender report 563-2010, approved by City Development Committee on 22nd November, 2010.

Authority is requested for the Depute Chief Executive (Support Services) to agree terms and conditions to be agreed with Network Rail in consultation with the City Engineer and Director of Finance and to sign the agreement on behalf of the Council
