

**5        TRANSFER OF GROUND TO THE REAR OF CHARLESTON COMMUNITY CENTRE  
(AN151-2009)**

Reference is made to Item XII of the Planning and Transportation Committee held on 17th April, 2006, whereby an area of derelict ground where lock-up garages have been demolished is proposed to be upgraded to form a utility area for the Charleston Community Centre and car parking at the rear of the Craigowan shops. In view of this, the Sub-Committee is requested to approve the transfer of the ground forming the utility area from the Housing Account to the Communities Department Account and the new car parking area from the Housing Account to the Economic Development Account.
