

**9 RESURFACING OF ST MARY'S PRIMARY SCHOOL PLAYGROUND IMPROVEMENTS
2009/2010 (AN155-2009)**

On the instruction of the Director of Education, proposals have been prepared for resurfacing work within the grounds of St Mary's Primary School.

It is recommended that the City Engineer be instructed to include this work within the existing Partnership Agreement with Tayside Contracts for delivering the road maintenance and minor road works service.

Approval is therefore sought to extend the Partnering Agreement with Tayside Contracts for this work up to the value of £25,000 including professional fees. The Depute Chief Executive (Finance) advises that the expenditure can be met from the Education Capital Programme 2009/2010.
