

2 SCOTTISH FOOTBALL ASSOCIATION COMMUNITY PROGRAMME (AN172-2003)

A request has been received from the SFA Community Programme to organise courses on developing football in the community for 5-10 year olds during the school summer holidays in various open spaces and landscape areas throughout the city.

It is recommended that permission be granted free of charge for use of various open spaces in consultation with the Director of Dundee Contract Services subject to the necessary insurances indemnifying the Council against damage to property, injury or loss of life to members of the public and, any services being provided by the Department being paid for by the applicant. In addition, the Director of Dundee Contract Services should also withdraw consent if satisfied that any public complaints are justified.
