

2 WINTER MAINTENANCE POLICY AND LEVEL OF SERVICE 2015/16 (AN178-2015)

Reference is made to Article VII of the City Development Committee of 24th September, 2012 where, following the severe winter of 2010/11 and detailed reviews of all stakeholders, improvements to the policy and level of service for winter 2012/13 were approved. This improvement policy and level of service was adopted for 2013/14 and 2014/15 and it is recommended that it is adopted again for 2015/16 with an update in relation to the treatment of remote cycle routes during winter maintenance.

It is proposed that the remote principal section of cycle way on the Green Circular Route from Douglas Terrace, Broughty Ferry to Invergowrie be treated in accordance with footway secondary routes.

Over the next 12 months all the principal cycle routes within Dundee will be reviewed as part of the Council's developing Cycling Strategy to establish a network for treatment and these will be incorporated as appropriate within the 2016/17 winter maintenance policy.

A copy of the current policy can be obtained using the attached link.
