

**5 DUNDEE GREEN CIRCULAR CYCLE ROUTE - (STANNERGATE TO DOUGLAS TERRACE WALKWAY) (AN195-2005)**

As part of an initiative to improve the National Cycle Network funding has been obtained from Sustrans to upgrade the cycleway from Stannergate to Douglas Terrace Walkway.

The City Engineer has obtained through the Unit Rate Contract for Road Maintenance and Other Minor Roadworks, an offer of £50,601.10 from T & N Gilmartin (Contractors) Ltd to resurface approximately 800m of the cycleway. The value of the Works, including allowances for Professional fees of £5,000 and contingencies of £29,398.90 is £85,000. In addition, a further allowance of £5,000 has been allocated to carry out feasibility and preliminary design for the west most section of the cycleway.

The Depute Chief Executive (Finance) advises that the above costs can be met from the grant of £90,000 in 2005/06 from the Scottish Executive via Sustrans for improvement works to the National Cycle Network.
