

3 PROTECTED FOOD NAME - DUNDEE CAKE (AN247-2014)

Dundee's Baker Trade, supported by Dundee City Council, has submitted their application for Dundee Cake to be registered under the EC Protected Food Name (PFN) Scheme under the Protection of Geographical Indication (PGI) designation. The application for Dundee Cake PGI status outlines the raw materials and volumes that must be used in a Dundee Cake and specifies the cake must be mixed, baked and decorated in the Dundee specific area. Parties who wish to comment/object must state their intention to do so within four weeks of the launch last week. They will then have a further eight weeks to complete details of their comments/objections. The full process for approval can take up to two years to complete. The Committee is asked to agree that Dundee City Council submits a comment supporting the application for protected status for one of the City's most famous delicacies and an important part of our history.
