

5 DUNDEE AIRPORT AIRSIDE ACCESS CENTRAL FACILITY (PARTNERING) (AN278-2003)

Reference is made to Article I of the minute of meeting of this Committee of 19th May 2003 when approval was given to progress the building phase of the Single Airside Access Control Facility project at Dundee Airport. The Committee is asked to note that this will be achieved by the City Architectural Services Officer negotiating a contract within the overall capital budget for the first phase of this project of £530,000 in 2003/04, under a partnering arrangement with an appropriate contractor. The Director of Support Services, in conjunction with the Director of Economic Development, will then issue an acceptance for this contract after formal capital borrowing consent has been received from the Scottish Executive.

Contracts with specialist contractors for communications and electronic pass control systems will also be negotiated and accepted in the same manner subject to the approval of the Chief Executive.
