

10 PLANNING AND TRANSPORTATION DEPARTMENT - ESTABLISHMENT OF FIXED TERM POSTS (AN281-2005)

A review of staffing levels has recently been carried out within the City Engineer's Division where the Division is currently under significant pressure in meeting ongoing workload demands, specifically on the £57 million Central Waterfront Development Infrastructure Project and the £19 million Tay Road Bridge bearing replacement contract.

Accordingly, the Sub-Committee is asked to approve the establishment of two Engineer posts, graded AP2-PO4, £16,515 - £28,632, for a fixed term period of three years.

The financial implications of these changes amount to £65,440 in a full financial year, inclusive of employer's costs, and will be funded from professional services fees charged by the City Engineer's Division.
