

## **14      INTEGRATED CHILDREN'S SERVICES (AN371-2005)**

A 'Development Event' building on the foundations laid down within the Chief Executive's Action Plan for Children's Services is to take place on Tuesday, 8th November 2005 from 10am to 3.30 pm in the Committee Rooms at 14 City Square.

The event draws its agenda from a consultancy Report on 'Integrated Children's Services' compiled by Margaret Wells, the main findings of which will be presented to the meeting and a related action plan proposed by the Children's Services Management Executive Group.

The programme is also heavily influenced by the draft 'Plan for Dundee's Children' and the Scottish Executive agenda on integrated approaches to working with children, young people and families.

The seminar is aimed at key elected members, senior officers and practitioners within the major services, community planning partners and the voluntary sector.

Numbers are restricted and it is recommended that the Leader of the Council, Conveners and Shadow Conveners of Social Work, Education and Communities respectively, along with a representative from the Liberal and Conservative Groups attend.
