

2 PURCHASE OF STREET SWEEPER (AN402-2004)

Reference is made to Article I of the Policy and Resources Committee of 30th June, 2003 when authority was given to purchase vehicles from the Quality of Life budget. Monies are available this financial year to again extend street sweeping operations, and it is proposed to purchase an Applied 525 Hi-Speed Green Machine. Tenders were sent out in March 2003 for a variety of vehicles and the successful bid from Applied Sweepers Ltd, Falkirk amounting to £33,950 is the lowest offer. The Committee is requested to approve this purchase.
