

10 CAMPERDOWN COUNTRY PARK NORTH ENTRANCE SIGNAGE (AN57-2006)

As part of a continuing programme to improve signage and interpretation throughout Camperdown Country Park, the Leisure and Communities Department seeks approval for the erection of a sign at the North Entrance of the park. The sign will complement car park and access works proposed in this part of Camperdown at a cost of £8,000 + VAT.

It is recommended that Keillor Graphics, a specialist graphic design and sign company, undertake the work. Keillor Graphics have been responsible for the development, design and production of signage throughout the park including the erection of the main entrance sign at Camperdown. In order to retain continuity, obtain best value and promote a unified image to the park it is recommended that Keillor Graphics be used for this latest phase of works.

The Committee is recommended to accept the quote of £8,000 + VAT received from Keillor Graphics. This quote covers the manufacture, supply and fitting of the sign.
