

3 PURCHASE OF INTERNAL RECYCLING CONTAINERS FOR SCHOOLS (AN57-2019)

In order to expedite the programme of works to install internal recycling facilities at all Dundee City Council premises to ensure these are aligned with City's domestic collection profile, it was necessary to undertake a procurement exercise for recycling containers suitable for schools and nurseries. Details of the specific requirements for school and nursery properties were obtained during assessment visits by the Waste team, with specifications for a suite of complementary recycling units created and a subsequent tender was published on 17 July 2019. Bids were subsequently received from the following supplier:

Leafield Environmental Ltd

Following tender evaluation, it is recommended that the contract(s) be awarded to:

Leafield Environmental Ltd

The total cost of the purchases is anticipated to be approximately £49338 from Leafield Environmental Ltd. These costs will be met from the allowances for Recycling and Waste Management in 2019/20 within the Service Provision section of the Capital Plan 2019-24.
