

2 PARKS RESURFACING WORKS (AN9-2008)

On the instruction of the Director of Leisure and Communities, proposals have been prepared for resurfacing work within Camperdown Country Park and other parks.

It is recommended that the City Engineer be instructed to include this work within the existing Partnership Agreement with Tayside Contracts for delivering the road maintenance and minor road works service.

Approval is therefore sought to extend the Partnering Agreement with Tayside Contracts for this work up to a value of £40,000 including professional fees. The Depute Chief Executive (Finance) advises that the expenditure can be met from the Leisure and Communities Capital Programme 2007/2008 and the Quality of Life Fund.
