REPORT TO: IMPROVEMENT AND EFFICIENCY SUB-COMMITTEE -

30 MARCH 2010

REPORT ON: CORPORATE PERFORMANCE SELF ASSESSMENT 2009/2010

- REPORT FOR NINE MONTHS TO 31 DECEMBER 2009

REPORT BY: DIRECTOR OF FINANCE

REPORT NO: 115-2010

1 PURPOSE OF REPORT

1.1 The purpose of this report is to advise the Elected Members of the performance of Dundee City Council for the nine months to 31 December 2009.

2 **RECOMMENDATION**

- 2.1 Elected Members note that performance levels for the first nine months of the financial year have generally been maintained or improved.
- 2.2 All Chief Officers should review the contents of Appendix 1 as it relates to their service and consider if there are any indicators for which performance can be improved.

3 FINANCIAL IMPLICATIONS

3.1 All initiatives to improve performance must be kept within existing budgets.

4 BACKGROUND

- 4.1 The Council has now been monitoring performance on a quarterly basis for three years during which time it has became clear that the very process of monitoring performance more frequently than the traditional annually has helped improve performance and in some cases significantly.
- 4.2 As Elected Members will be aware, in 2009/2010 performance self-assessment was introduced for all local authorities in Scotland. This has meant that Audit Scotland has specified a number of core indicators which each local authority must collect and publish whilst allowing each authority to decide which other non-specified indicators it wishes to collect and publish to keep stakeholders informed of performance issues. The balance of specified to non-specified indicators in the quarterly report is 40:60 which it is anticipated will be mirrored for the authority's annual self-assessment. This balance is considered reasonable.

5 **PERFORMANCE OVERVIEW**

- 5.1 The performance indicators for which there is merit in measuring quarterly performance are listed in Appendix 1. Performance for each of these has been colour coded with green reflecting a performance improvement >5% and amber denoting performance +/-5%. Red denotes performance deterioration of >5%.
- 5.2 In Appendix 1 87% of the performance indicators either showed performance being maintained or improved. Only 6 indicators suggested a significant deterioration in performance. 10 indicators suggested there would be a significant improvement in performance compared to the previous period.

6 CREATING AND DELIVERING A VISION FOR DUNDEE

6.1 The Council is currently collecting 19 indicators on a quarterly basis in this category of which 89% have either maintained or improved performance compared to the previous period. Learning Centre users and refuse complaints were the only areas in which performance significantly declined.

7 MODERNISING AND IMPROVING SERVICES FOR THE PUBLIC

7.1 The Council is currently collecting 14 indicators on a quarterly basis in this category of which 79% have either maintained or improved performance compared to the previous period. The only declining indicators were benefits and planning processing times.

8 MAKING THE BEST USE OF PUBLIC RESOURCES IN THE CITY

8.1 The Council is currently collecting 13 indicators on a quarterly basis in this category for which 92% have either maintained or improved performance compared to the previous period. The only significant declined in performance related to sickness absence, excluding teachers.

9 **POLICY IMPLICATIONS**

9.1 This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management. There are no major issues.

10 **CONSULTATION**

10.1 The Chief Executive, Depute Chief Executive and Assistant Chief Executive have been consulted on the content of this report.
