ITEM No ...4.....

REPORT TO: CITY GOVERNANCE COMMITTEE – 8 JANUARY 2024

- **REPORT ON: REVENUE MONITORING 2023/2024**
- **REPORT BY: EXECUTIVE DIRECTOR OF CORPORATE SERVICES**
- **REPORT NO: 14-2024**

## 1 PURPOSE OF REPORT

1.1 To provide Elected Members with an analysis of the 2023/24 projected revenue outturn as at 31 October 2023 and the impact on the Council's overall balances position.

#### 2 **RECOMMENDATIONS**

- 2.1 It is recommended that the Committee:
  - note that as at 31 October 2023 the General Fund is projecting an overall overspend of £1.493m against the adjusted 2023/2024 Revenue Budget and the impact this has on the projected Council's General Fund Balances;
  - (b) note the budget adjustments totalling £13.261m and detailed in second column of Appendix A as virements to the previously approved Revenue Budget;
  - (c) note that as at 31 October 2023 the Housing Revenue Account (HRA) is projecting an overspend of £1.900m against the adjusted HRA 2023/24 Revenue Budget and the impact this has on the element of the projected Renewal & Repair Fund balance earmarked to HRA;
  - (d) note the position on ring-fenced grants expenditure outlined in Appendix B;
  - (e) note that the Chief Executive, in consultation with Executive Directors, will continue to take appropriate steps to manage current and recurring revenue expenditure, including reviewing all vacancies within the Council, reduce discretionary expenditure where possible and limit any new recurring commitments. Executive Directors will work with Corporate Finance to develop recovery plans to identity options to reduce the projected in year overspend;
  - (f) note the key strategic, operational and financial risks being faced by the Council outlined in Appendix C; and
  - (g) notes the current position in relation to Leisure and Culture Dundee (LACD), as set out in paragraph 7.3.

# 3 FINANCIAL IMPLICATIONS

3.1 The unallocated portion of the General Fund as at 31 October 2023 is projecting an overspend of £1.493m against the adjusted 2023/24 Revenue Budget. The impact this would have on the Council's General Fund Balances is outlined below:

General Fund	Opening Balance 1 April 2023 £000	(Surplus) / Deficit for the Year £000	Transfers (In) / Out £000	Projected Balance 31 March 2024 £000
Earmarked Carry-forwards*	5,962	1,560		4,402
Children Services pressures	4,300	4,300		0
Organisational Change Fund	2,532	105		2,427
Covid cost related pressures*	14,647	2,331		12,316
Covid recovery measures	1,280	875		405

Service change initiatives	5,000			5,000
Roof Remedial Works	3,707	1,393		2,314
Inflationary Pressures	3,800	3,300	500	0
Cost of Living pressures			(500)	500
Contribution to 2023/24	1,750	1,750		0
budget				
Other earmarked Funds	4,443	788		3,655
Total earmarked funds	47,421	16,402	0	31,019
Unallocated Balance	9,226	1,493		7,733
Total General Fund	56,647	17,895	0	38,752

\* These balances will be drawn down as required.

- 3.2 The approved budget included an allowance of 4% for the 2023/24 LGE (non-teachers) pay award. It has been agreed to implement the offer made on 21 September 2023. Please note that the LGE pay award uplift with effect from 1 April 2023 was applied to salaries in November 2023. The impact on budget projections and details on any variances of this will be reflected in the next revenue monitoring report.
- 3.3 On 19 October, the Bellwin Scheme was activated following the arrival of Storm Babet. Under the terms of the Bellwin Scheme, claims can be made if eligible losses exceed the annual threshold level set by the Scottish Government, which for Dundee City Council is £753,196. This means that the first £753,196 of eligible losses incurred during 2023-2024 will be met from existing resources. The Scottish Government has established a Ministerial Workforce in response to the Storm and funding has been provided to the Council to support individuals and business directly affected by the flooding.
- 3.4 Above projections will continue to be monitored by officers throughout the remainder of the year and reported to Members. It should be noted that the Council agreed a Budget Strategy 2024/25 (Article IV of the agenda of the meeting of the City Governance Committee on 4 September 2023, Report No:230-2023 refers) that highlighted a potential budget shortfall of £19.5m for 2024/25. The report sets out six strands to deliver a balanced budget for 2024/25.
- 3.5 Based on the financial information available as at 31 October 2023 the HRA outturn position for 2023/24 is projecting an overspend of £1.900m. Further details are provided in section 8 of this report.

# 4 BACKGROUND

- 4.1 Following approval of the Council's 2023/24 Revenue Budget by the Policy and Resources Committee on 23 February 2023, this report provides the projected revenue outturn position as at 31 October 2023, against the adjusted 2023/24 Revenue Budget.
- 4.2 The total 2023/24 Revenue Budget is £423.963m. For revenue monitoring purposes, the Council Tax Reduction Scheme budget of £14.072m is moved from expenditure to income and netted off against Council Tax income. This results in total budgeted expenditure of £409.891m for revenue monitoring purposes, as set out in Appendix A.
- 4.3 This report provides a detailed breakdown of service revenue monitoring information along with explanations of material variances against adjusted budgets. Where services are projecting a significant (underspend) or overspend against adjusted budget, additional details have been provided. Where service expenditure is on target and no material variances are anticipated, additional information has not been provided.
- 4.4 The forecast position is shown in more detail in the appendices to this report, as follows:

**Appendix A** shows the variances between budget and projected outturn for each service of the Council.

Appendix B shows the financial performance against ring-fenced funding to date.

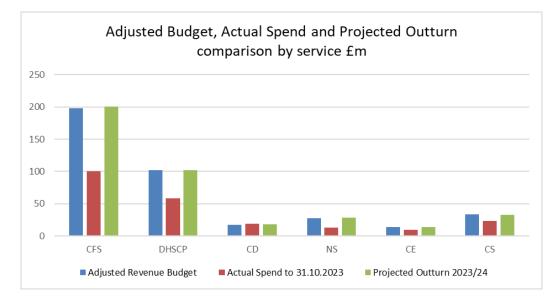

Appendix C lists the key strategic, operational and financial risks being faced by the Council.

# 5 GENERAL FUND SERVICES - MONITORING POSITION AS AT 31 OCTOBER 2023

5.1 The forecast position as at 30 September 2023 for General Fund services is summarised below.

	(Under)/ Over	(Under)/ Over	Movement
	Spend	Spend	(from previous
	as at	as at	month)
	31 October	30 September	
	£m	£m	£m
Net Expenditure	3.160	3.000	0.159
Sources of Income	(1.667)	(1.609)	(0.058)
Net over/ (underspend) on unallocated portion of General Fund	1.493	1.391	0.101

The graph below details the comparison between each service's actual spend and projected outturn.

The graph below shows the projected variance over the reported periods.

5.2 The table below details the key factors which contributed to the movement from previous month.

	£m
Increase in projected net shortfall within Construction services mainly due to under recovery of fixed and indirect overheads as a result of expected projects being delayed	0.348
Projected underspend on third party payments within City Development	(0.123)

## 6 DETAILED ANALYSIS

The following paragraphs summarise the main areas of variance by service along with appropriate explanations. These figures reflect movements for the full year to date.

#### 6.1 Children & Families Services: £1.909m overspend

	£m
Children's Services third party payments due to a higher than anticipated number of children who have been placed into secure care offset against additional grant funding for unaccompanied asylum-seeking children	1.794
PPP unitary charges (reflecting greater RPI than budgeted)	0.450
Projected overspend on energy costs	0.794
Less: Planned transfers from earmarked reserves to meet energy pressures	(0.767)
Projected overspend in property costs due to rates anticipated to be higher than budget	0.161
Income received in respect of Ukranian Refugees expenditure already incurred	(0.135)
Additional income from SEN, departmental recharges, early years childcare fees	(0.338)
Savings arising from industrial action	(0.181)

Third party payments for placements within Children Services remain a significant cost pressure although the service is implementing a plan to reduce these costs. Since April, the number of children and young people placed in external residential and secure accommodation has reduced from 43 to 32. In addition, there continues to be a reduction in the number of internal foster placements available, which means that children and young people returning to the city are either placed in Young Person's Houses, with kinship carers or their own parents. Finally, shift changes have also been implemented within Young Person's Houses to increase the room capacity available and reduce reliance on expensive external placements outwith the city.

The adjusted net overspend reflected within this report after applying reserves of £4.3m is  $\pounds 2.4m$ . The projected overspend is  $\pounds 0.245m$  lower than the previously reported position of  $\pounds 2.646m$  overspend, which is mainly due to review of payments to other organisations. This area is under ongoing review to ensure that appropriate steps are taken to bring overall spend in line with the approved budget level before the end of the financial year.

## 6.2 Dundee Health & Social Care Partnership: Breakeven

The latest Financial monitoring report presented to Dundee IJB projects an overspend of £6.02m for 2023/24, with this information presented to Dundee IJB at its meeting on 25th October 2023. This projected overspend now exceeds 2023/24 IJB Financial Plan where up to £3m has been identified and set aside in IJB Reserves to cover the anticipated shortfall. The projection also recognises an element of anticipated winter demand pressures which will be funded from further £1m identified IJB Reserves. The position also now includes provision for an increased pay award for Council-employed staff (based on the offer on the table in early October) with the current assumption that this cost pressure will be unfunded.

DHSCP is continuing to respond to significant operational challenges in demand and demographics (notably in Care at Home provision to help mitigate against hospital delayed discharges and reduce social care unmet need), and in particular staffing challenges (both

recruitment and retention, sickness absence and premium cost of back-fill cover), complexity of needs in community settings, and the wider impact of deferred treatments on health and wellbeing following the pandemic period, all of which are impacting on the projected financial position. In addition, within GP Prescribing, pricing, volume and short supply of pharmaceuticals are all driving the cost pressure. Operational and financial management continue work to explore ways of mitigating the overspend through efficiencies, transformation and savings opportunities and any impact of these actions will be reported in due course.

Under the risk sharing arrangement reflected in the Integration Scheme, the Integration Joint Board (IJB) retains any underspend within its reserve balances for investment in integrated health and social care services in future years. Sufficient Reserves are held by Dundee IJB to cover the projected 2023/24 shortfall therefore there is no additional contribution requirement or financial risk forecast in 2023/24 for Dundee City Council.

^

## 6.3 City Development: £0.146m overspend

	£m
Additional security staff relating to essential works in Dundee House	0.114
Anticipated health and safety repair costs within Dundee House and City Square properties	0.347
Projected overspend on energy costs, including Street Lighting	1.235
Less: Planned transfers from earmarked reserves to meet energy costs pressures	(1.206)
Shortfall in income generated from Building Warrants	0.342
Projected underspend on third party payments due to anticipated underspend on No None Left Behind Employability Funding which is partly offset against increase in costs for Roads Maintenance and Dundee Science Centre payments	(0.123)
Forecasted shortfall in income from off-street car parking	0.745
Less: Planned transfers from Covid earmarked reserves to meet associated loss of income	(0.745)
Increase in projected rental income from commercial property portfolio	(0.497)

The service continues to review this area to ensure any non-essential repairs can be deferred to enable them to contain this budget pressure. In addition, the service is reviewing all other discretionary spend in particular vacant posts and identifying areas that could bring additional income, for example from projects or commercial activities to assist in offsetting the projected overspend.

The cost of the Council's fleet remains a budget pressure due to rising expenditure in relation to the external hire of vehicles used by services. This is currently being reviewed in detail and any impact will be reflected in future monitoring reports.

6.4 Neighbourhood Services: £0.831m overspend

	£m
Mainly reflects that additional income expected to be gained from excess revenue share for the waste to energy contract has not materialised partly due to falling energy prices	1.506
Less: Planned transfers from earmarked reserves to meet energy and inflationary pressures associated with waste to energy plant.	(1.327)
Increased property costs within Neighbourhood Services relating to additional expenditure on Network flats, lost rents and repairs and maintenance	0.348
Projected overspend within supplies and services, mainly due to anticipated expenditure on Bed & Breakfast and additional removal costs	0.407
Increase in fleet hire charges forecasted to be higher than budget. The fleet overspend is mainly attributable to increased, unbudgeted fleet charges.	0.381

Streetscene & Land Management: income mainly from projects, interment fees and ground maintenance activities are forecasted to be lower than budgeted	0.613
Projected increase in income from recharges, additional service charges and Housing Benefit income from temporary accommodation	(0.833)
Anticipated staff cost underspend due to vacancies	(0.215)

A technical review is underway on fleet budgets and recharges to ensure adequate provision is allocated to managing this resource in future fleet management budgets related to waste and environmental operations.

**^**...

^

## 6.5 Corporate Services: (£0.273m) underspend

	£m
Projected underspend in staff costs due to vacancies and action taken to postpone recruitment process	(0.470)
Projected overspends in supplies & services expenditure mainly due to increased costs of Computer Hardware, Software and Licences	0.336
Projected additional income mainly relating to estimated Superannuation Fund recharge, additional government funding and other internal recharges, offset by income shortfall in relation to the ongoing closure of the Underground Garage	(0.186)

#### 6.6 Construction Services: £1.242m overspend

	£m
Reflects projected net shortfall in the recovery of fixed and indirect overheads due to a reduction in productive hours that has been partly impacted by industrial action earlier this year and staff absence levels being greater than anticipated	0.992
Reflects one-off set up costs associated with the implementation on total mobile repairs management system	0.250
A review has been organised on cost recharges and any movement to the above projection of this will be reflected in future reports.	ection as

#### 6.7 Capital Financing Costs: (£1.272m) underspend

	£m
Savings due to slippage in 2022/23 capital programme resulting in lower loan repayments in 2023/24 and deferral of any new long-term borrowing until later in the financial year	(1.272)

The concurrent capital monitoring report for the period to date identifies further slippage and a forecasted reduction in planned expenditure. The position will continue to be monitored closely in the coming months and officers will report any movement to the above projection as a consequence of this.

## 6.8 Council Tax: (£1.667m) underspend

	£m
Reflects projected underspend on Council Tax	(1.363)
Reflects projected underspend on Council Tax Reduction	(0.304)

#### 6.9 Bad Debt Provision: £0.236m overspend

	£m
Reflects projected increase in bad debts in the year	0.236
This position will continue to be menitered closely in the coming menths	

This position will continue to be monitored closely in the coming months.

6.10 Miscellaneous Items: (reduced income £0.265m)

14-2024

Reflects that Tayside Contacts have reported that our budgeted share of distributable surplus will be reduced.

#### 7 ONGOING ACTIONS

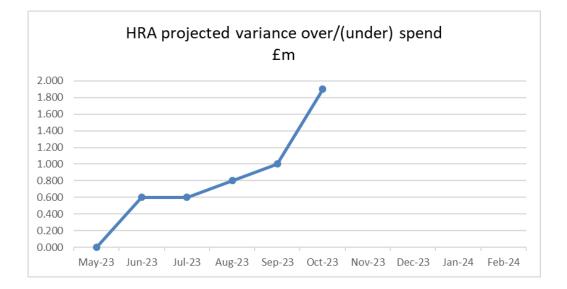

- 7.1 This report identifies projections based on the first 7 months of the financial year. The figures are therefore indicative at this stage and are used by the Council Leadership Team to identify variances against budget and enable corrective action to be taken as appropriate. Each service is working closely with Corporate Finance staff, firstly to ensure that these projections are met and then to identify scope to improve the outcome.
- 7.2 In addition, further Council-wide initiatives are underway to help manage existing and emerging cost pressures. These include reviewing the requirements for overtime working, a focus on absence rates and increased vacancy control over the remainder of the financial year. There is an ongoing review of discretionary spend and other opportunities for efficiencies and budget savings.
- 7.3 In October 2022 the Council agreed to authorise the Chief Executive to issue a letter of comfort to Leisure and Culture Dundee confirming the Council's continuing financial support in financial year 2022/23 and for a period of at least 12 months beyond the date of the signing of Leisure and Culture Dundee's 2021/22 accounts whilst setting out an expectation that from 2023/24 Leisure and Culture Dundee will operate with a balanced budget (Article III of the minute of Policy and Resources Committee on 31 October 2022 refers). Leisure and Culture Dundee have been provided with additional financial support of £2.914m over the past two years to mitigate the impact of Covid 19 with the expectation that this support will cease this year. The expected cost of financial support to LACD for 2023/24 of £1.586m will be met from Covid earmarked reserves. To provide certainty, stability and time for Leisure and Culture Dundee to develop a balanced budget from 2024/25 onwards the Council further agreed (Article VI of the minute of the meeting of City Governance on 21 August 2023 refers) to extend this support to 31 March 2024. It was further agreed at the City Governance meeting on 4 December 2023 that the Chief Executive be authorised to extend the support to LACD to 30 June 2024 should this be necessary.
- 7.4 The cost pressures experienced by the Council is of course also experienced by partner organisations, notably Tayside Contracts where the effects of food inflation is an additional pressure that is keenly felt. The Council will continue its engagement with Tayside Contracts in seeking to absorb cost pressures in the current financial year, and to assess the impact thereof in future budgets. At this stage the effect of these pressures on Dundee City Council cannot be fully quantified. Officers are analysing this and any unbudgeted costs will be reported to members in future monitoring reports.

## 8 HOUSING REVENUE ACCOUNT - MONITORING POSITION AT 31 OCTOBER 2023

8.1 The forecast position as at 31 October 2023 for the HRA is summarised below:

	(Under)/ Over Spend as at 31 October £m	(Under)/ Over Spend as at 30 September £m	Movement (from previous month) £000
Net Expenditure	2.310	1.410	0.900
Sources of Income	(0.410)	(0.410)	0.000
Net over/ (underspend)	1.900	1.000	0.900

The graph below shows the projected variance over the reported periods.

8.2 The key variances that make up the October position are shown in the table below. These figures reflect movements for the full year to date.

	£m
The demand for additional expenditure on relets to work through the backlog of properties and void losses is greater than budgeted will absorb the underspend on loan charges. In addition, higher than budgeted electricity costs for stair lighting and additional expenditure on timber treatment and asbestos works.	2.360
Savings due to slippage in the 2022/23 capital plan resulting in lower loan repayments in 2023/24 and deferral of new long-term borrowing until later in the year	(0.410)
Anticipated underspend in staff costs due to delays in filling vacant posts	(0.050)

8.3 Any final variance will be adjusted against Renewal & Repair Fund, the housing element of which amounted to £11.392m as at 31 March 2023. This adjustment would be in addition to the £0.500m that was agreed as part of the 2023/24 HRA Revenue Budget that would be taken from the Renewal & Repair Fund to fund a one-off increase in the Hardship Fund (Report No: 33-2023 to Policy & Resources Committee on 23 January 2023, refers). A system of perpetual detailed monitoring will continue to take place up to 31 March 2024 with the objective of the HRA achieving a final outturn which is below or in line with the adjusted 2023/24 HRA Revenue Budget.

# 9 RISK ASSESSMENT

- 9.1 In preparing the Council's 2023/24 Revenue Budget, the key strategic, operational and financial risks faced by the Council over this period were considered. To alleviate the impact these risks may have if they occur, a number of general risk mitigation factors are utilised by the Council.
- 9.2 The key risks in 2023/24 have been assessed both in terms of the probability of whether they will occur and the severity of their impact on the Council should they indeed happen. These risks have been ranked as either zero, low, medium or high. Details of this risk assessment are included in Appendix C to this report.
- 9.3 These risks have been assessed and ranked accordingly both in terms of the probability of whether they will occur and the severity of their impact on the Council should they indeed happen. Any changes to the assessment from the previous reporting period, together with any additional comments included, are highlighted in bold type.

## 10 POLICY IMPLICATIONS

10.1 This report has been subject to the Pre-IIA Screening Tool and does not make any recommendations for change to strategy, policy, procedures, services or funding and so has not been subject to an Integrated Impact Assessment. An appropriate senior manager has reviewed and agreed with this assessment.

#### 11 CONSULTATIONS

11.1 The Council Leadership Team were consulted in the preparation of this report.
