### Department: Social Work

Services for which Charges are/could be levied	Present Charge £	Proposed Charge £	Additional Income 2001/2002 £	Additional Income in Full Financial Year £
Residential Care Charges Revise Standard Charges to Reflect 2001/2002 Budgeted Cost Current legislation obliges local authorities to set a standard charge for residential care provision, based on the full economic cost of that provision. Accordingly, the standard charge cannot be set until the overall revenue budget has been approved. However, there are very few residents who are assessed as liable for the full charge and resident numbers in homes are reducing as dependency levels increase. It is therefore unlikely that any additional income will be generated.				
Meal Charges Increase meal charges from current price of £1.10 to £1.20. This may result in reduced uptake of meals.	1.10	1.20	19,000	19,000
Out of Hours Community Alarm Service to Housing Providers Introduce a charge to other housing providers to cover the cost of providing community alarm cover for their tenants out of hours.	Nil	To be determined		
Non-Residential Care Charges Increase unit charges for home care, social care and day care It is proposed to review several elements of the current charging policy for non residential community care services with a view to addressing anomalies and ensuring equity. A detailed committee report will be prepared.	Various			
Home Care Social Care Day Care (Older people) Mackinnon Centre	6.10 per hour 7.23 per hour 23.05 per day 11.93 per session	6.30 per hour 7.45 per hour 23.75 per day 13.00 per session		
Service users do not contribute towards the cost of their care if their assessed income falls below certain thresholds. It is proposed to increase these thresholds as follows: $\frac{2000/01}{\text{Single Person}} \qquad \frac{2000/01}{\text{E } 105} \qquad \frac{2001/02}{\text{E } 109} \qquad \frac{\% \text{ Increase}}{3.8 \%}$ Couple $\qquad \qquad \text{E } 145 \qquad \text{E } 150 \qquad 3.4 \%$ Dependent Child Disregard $\qquad \text{E } 34 \qquad \text{E } 35 \qquad 2.9 \%$ Introduce a capital cut off point of £18,500. Service users with capital in excess of £18,500 would be required to pay the full cost of their services.	, ,			
Increase the maximum weekly charge for those with capital below £18,500.	Max £60 per week	Max £70 per week		
Estimated additional income from all these changes			93,000	93,000
As the charge levied relates to the service users income it is not possible to calculate precisely the additional income generated by these changes. Some users may choose to withdraw from services thus affecting income collected.				
"A Joint Future", the report of the Joint Future Group published on 4 December 2000, recommends the provision of free home care for up to 4 weeks for older people leaving hospital.  The precise details of this, such as eligibility criteria, the duration of the "free" period and the definition of home care, have yet to be established. However, it is estimated that implementing this recommendation could result in a reduction of up to £170,000 in budgeted income. This loss of income will have to be funded from the additional resources allocated to Dundee City Council to implement "A Joint Future".
