REPORT TO: EDUCATION COMMITTEE - 25 JUNE 2012

REPORT ON: PROCUREMENT OF SCHOOL TRANSPORT

REPORT BY: DIRECTOR OF EDUCATION AND HEAD OF TRANSPORTATION

REPORT NUMBER: 246-2012

1 PURPOSE OF REPORT

1.1 This report details tenders received for the provision of home to school transport and seeks approval to award contracts.

2 RECOMMENDATION

2.1 It is recommended that approval is given to allow the award of the contracts as detailed in Appendix 1.

3 FINANCIAL IMPLICATIONS

3.1 The cost of funding the home to school transport contracts can be met from within the Education Department revenue budget.

4 BACKGROUND

- 4.1 The Sustainable Transport Team within City Development Department is responsible for the procurement and management of contracts that facilitate the transport of children between their homes and school.
- 4.2 The Education Department decides on eligibility (entitlement to transport) and retain responsibility for the home to school transport budget. The majority of children who are deemed eligible for home to school transport have Additional Support Needs or live more than 3 miles from their designated school.
- 4.3 There is a small number of in-house fleet minibuses that convey children to school, but the majority of entitled children travel to school in contracted vehicles operated by private sector providers.
- 4.4 Transport contracts are generally awarded on a three year basis and are awarded to a mixed fleet of private hire car operators, taxi operators, minibus operators and local bus (PSV) operators. The last major tendering exercise was undertaken in July 2009 when 92 school transport contracts were awarded. A full tendering exercise was therefore required in 2012 to renew all contracts for the start of the 2012/13 academic session.
- 4.5 The renewal of contracts provided the opportunity to amend the Conditions of Contract that govern the contractual relationship between the Council and its transport contractors. Particular attention was given to revising the requirements for the vetting of operational staff (drivers and escorts). Tenderers were also instructed that they would be required to ensure that regular staff were allocated to specific contracts. The decision was also taken to introduce a maximum age for vehicles to be used on contract work, to ensure safety and reliability.

5 DATA FROM THE TENDER EXERCISE (HOME TO SCHOOL)

- 5.1 90 Education Transport Contracts that were available for tender were posted on the Public Contracts Scotland Procurement Portal on 23 March 2012 with a closing date of 30 April 2012. 32 operators requested tender labels and of those, 30 submitted bids.
- 5.2 All tenderers submitted multiple bids. In total 657 bids were received for the 90 contracts. This is an average of 7.3 bids per contract.
- 5.3 The tenders received were analysed by members of the Sustainable Transport Team. Cost was the sole factor on which tender submissions were assessed by the Sustainable Transport team. However when vehicle or escort availability precluded the award of a contract to the lowest bidder, contracts were awarded to ensure the most economically advantageous outcome for the Council. 71 contracts were awarded to the lowest bidder.
- 5.4 Specific information on the outcome of the tender exercises is detailed in Appendix 1. For each contract, the operator to whom the award is to be made is noted along with the annual value of that award (based on 190 schooldays). The value of the lowest and highest bids for each contract is also shown along with the number of different bids submitted. Of the 30 tenderers submitting bids, it is proposed to award contracts to 22 different operators.

6 POLICY IMPLICATIONS

- 6.1 This Report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management. The adoption of a maximum vehicle age will help contribute towards a reduction in vehicle emissions.
- 6.2 The provision of high quality home to school transport is not explicitly mentioned in the Dundee Single Outcome Agreement but it contributes to a number of local outcomes including 'our children will be safe, healthy, nurtured, active, respected, responsible and included'. The mandatory requirement placed on operators to provide continuity of operational staff will increase confidence in the service being provided to pupils and their parents.

7 CONSULTATIONS

7.1 The Chief Executive, Director of Corporate Services, Head of Democratic and Legal Services, and Director of City Development have been consulted and are in agreement with the contents of this report.

8 BACKGROUND PAPERS

None.

Michael Wood Director of Education

Neil Gellatly

Head of Transportation

11 June 2012

APPENDIX 1
