REPORT TO: IMPROVEMENT AND EFFICIENCY SUB-COMMITTEE -30 JUNE 2010

- REPORT ON: CORPORATE PERFORMANCE SELF-ASSESSMENT 2009/2010 REPORT FOR TWELVE MONTHS TO 31 MARCH 2010
- REPORT BY: DIRECTOR OF FINANCE

REPORT NO: 274-2010

1 PURPOSE OF REPORT

1.1 The purpose of this report is to advise the Elected Members of the self-assessment of performance of Dundee City Council for the twelve months to 31 March 2010, as defined by the Key Quarterly Performance Indicators.

2 **RECOMMENDATION**

- 2.1 Elected Members note that performance levels for the financial year have generally been maintained or improved.
- 2.2 All Chief Officers should review the contents of Appendix 1 as it relates to their service and consider if there are any indicators for which performance can be improved in 2009/10.

3 FINANCIAL IMPLICATIONS

3.1 All initiatives to improve performance must be kept within existing budgets.

4 BACKGROUND

4.1 Quarterly performance reporting has now been in operation for over three years. Originally based on the statutory performance indicators, the measures used have been broadened to include elements of self-assessment which it is intended will be expanded upon in future years.

5 **PERFORMANCE OVERVIEW**

- 5.1 The key performance indicators to be measured on a quarterly basis are listed in Appendix 1. Performance for each of these has been colour coded with green reflecting a performance improvement >5% and amber denoting performance +/- 5%. Red denotes performance deterioration of >5%.
- 5.2 In Appendix 1 87% of the performance indicators either showed performance being maintained or improved. Only six indicators suggested a significant deterioration in performance. Significant performance improvement is running at a rate of 28% which is in excess of the rough rule of thumb target of 25%.

6 CREATING AND DELIVERING A VISION FOR DUNDEE

6.1 The Council is currently collecting 19 indicators on a quarterly basis in this category for which 95% have either maintained or improved performance compared to the previous period. Learning centre users was the only item where performance declined significantly. Best improvement was the reduction in waste to landfill.

7 MODERNISING AND IMPROVING SERVICES FOR THE PUBLIC

7.1 The Council is currently collecting 14 indicators on a quarterly basis in this category for which 79% have either maintained or improved performance compared to the previous period. Planning application and benefit claim processing were the only areas in which performance declined significantly. Best improvement was the reduction in time between initial child protection investigation and registration.

8 MAKING THE BEST USE OF PUBLIC RESOURCES IN THE CITY

8.1 The Council is currently collecting 13 indicators on a quarterly basis in this category for which 85% have either maintained or improved performance compared to the previous period. The sickness absence indicators were the only indicators which declined significantly. Best improvement was the reduction in accidents to employees.

9 POLICY IMPLICATIONS

9.1 This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management.

There are no major issues.

10 CONSULTATION

10.1 The Chief Executive and Assistant Chief Executive have been consulted on the content of this report.

| Risk Status | High | | | | | | |
| Commentary | Although the number of internet log-ins are down by 1%, the severe weather, December through to February, was clearly a contributing factor to this result as 6 of the first 8 months of the period recorded a modest increase over the previous year's figures. PCs continue to be well used in all libraries but by fewer individuals who are possibly those who cannot afford to purchase their own IT The number of individual users is fewer at almost all locations citywide. A contributing factor may be the reduced numbers of migrant workers who previously made extensive use of IT facilities However, the total number of hours booked has increased by over 2% to 200,195 hours. Central and Broughty Ferry libraries also have the highest number of business people passing through who tend to log on only once The introduction of wi-fi in all libraries means people can use their own devices without the need to register with the libraries' Discover Booking System and therefore are not counted in this total The nature of the wi-fi set up, operating on guest access only, means that we cannot identify the number of individuals using this facility | | | | | | |
| Recovery Assessment | Not applicable |) | | | | | |
| Other Comment | It should be noted that this is not a specified indicator and that the Council does not intend using it in future years as part of performance self-assessment. | | | | | | |

Statutory Performance Indicators

| Department | Finance Revenues | | | | | | | |

| Deterioration rate | 37.0% | | | | | | | |
| Latest Scottish Ranking | N/A | | | | | | | |
| Statistical Overview | This indicator has been improving over the last few years, with the best ever performance last year. | | | | | | | |
| Risk Status | Medium | | | | | | | |
| Commentary | The drop in performance of this indicator has been due to several factors. Due to the economic downturn, the number of new claims received has increased significantly. This has led to a higher caseload being dealt with and maintained by the same level of resources. In respect of the staff resource, the number of staff available to deal with this work reuced over this period due to vacancies and the need to provide cover for the Revenues Enquiry team. Also, The software supplier upgraded it's core systems which required staff to undergo trainging on the new software. This required each member of staff to attend 2 days training on the new system. | | | | | | | |
| Recovery Assessment | The training has been completed and the vacant posts filled. Management information indicates that performance is improving and should continue to do so. | | | | | | | |
| Other Comment | Part of the improvement in performance will depend on how and when the country moves out of recession and the effect on the labour market. | | | | | | | |

| Statistical Overview | 20 These sizediants | | | and for an earth of initials with an | | | | |
| | | • | | nd frequently finish either cottish local authorities. | | | | |
| Risk Status | HIGH | | | | | | | |
| Commentary | A number of factors have contributed to the performance decrease :- there was a reduction in the number of case officers from 6 to 4 during the period ; the section was re-structured and a Planning Change Manager was appointed ; there were a number of significant changes made to the Development Management System ; staff time was required to familiarise themselves with the new procedures introduced in August 2009. | | | | | | | |
| Recovery Assessment | This indicator has been improving since April 2010 partly due to the more straightforward applications being dealt with by less well-qualified staff. This has freed up more time for the more complex applications to be considered. | | | | | | | |
| Other Comment | It is noted that these are specified indicators and therefore it is very important that performance levels are maintained where possible. | | | | | | | |

Statutory Performance Indicators

| Risk Status | HIGH | | | | | | | | |
| Commentary | Absence is a standing item at the Council's Management Team meetings and it has been noted with concern that the levels are not improving. The management team is committed to reversing this trend. To that end the Personnel Department reviewed the Managing Absence Sickness Procedure which involved consulting all Council departments. The new procedure is to be submitted to the Policy & Resources committee after the recess. | | | | | | | | |
