REPORT TO: BEST VALUE SUB-COMMITTEE - 31 JANUARY 2007

REPORT BY: HEAD OF FINANCE

SUBJECT: STATUTORY PERFORMANCE INDICATORS 2005/2006 -

COMPARATIVE DATA

REPORT NO: 34-2007

1 **PURPOSE**

- 1.1 To advise Elected Members on the performance of Dundee City Council in relation to the other Scottish Authorities as defined by the Accounts Commission's recent publication of all authorities' performance for the financial year 2005/2006.
- 1.2 To advise Elected Members on the performance of Dundee City Council in relation to the other main Scottish cities.

2 INTRODUCTION

2.1 The Accounts Commission has recently published the Statutory Performance Indicators for all Scottish Councils on its website for the financial year 2005/2006. Unlike in previous years the Accounts Commission has issued no press releases on the data. This report analyses the published information for Dundee

3 **RECOMMENDATIONS**

- 3.1 Elected Members should note the high overall improvement in performance as defined by the Accounts Commission's Improvement Rating for Dundee of +13, the third best in Scotland.
- 3.2 Elected Members note the improved performance of the Council in relation to other main city authorities which reported Improvement Ratings below that of Dundee.
- 3.3 Elected Members should encourage officers to seek further improvements in performance as recommended by Best Value.
- 3.4 Both Elected Members and Chief Officers should review the items in Appendix 2, particularly with regard to red colour coded items to assess if there is further scope for improvement.

4 FINANCIAL IMPLICATIONS

4.1 Improvements in performance must be met from existing budgets.

5 SUSTAINABILITY POLICY IMPLICATIONS

5.1 None.

5 **EQUAL OPPORTUNITIES IMPLICATIONS**

5.1 Members should note that performance for these indicators has improved on the previous year.

6 THE IMPROVEMENT RATING

- 6.1 The Accounts Commission's main measure of continuous improvement is the Improvement Rating (see Appendix 1). This calculation measures the degree of improvement above and below 5% for each indicator reported on a rolling three year basis. In Dundee's case the Council's performance improved for 22 indicators and deteriorated for 9 measures giving a net figure of +13. This is Dundee's best performance since 1999/2000 and was the third best in Scotland after East Ayrshire and North Lanarkshire.
- 6.2 The Council monitors performance in comparison to the other main Scottish city authorities as a benchmark. Dundee's performance was better than the other city rivals with Edinburgh, Glasgow and Aberdeen recording net improvements of 11, 6 and 4 respectively.

7 MAINTAINED AND IMPROVED PERFORMANCE INDICATORS

7.1 The Council's performance indicator profile for 2005/2006 was compared to the previous year for each indicator (see Appendix 2). These items are colour coded yellow for maintained performance and green for performance which has improved by 5% or more on the previous year. The detailed split by service is:-

Service	<u>Comparable</u> Indicators	Maintained/Improved Performance
	<u>maioators</u>	<u>r criormanoc</u>
Adult Social Work	11	9
Benefits Administration	2	2
Education & Children's Services	5	4
Corporate Management	11	10
Cultural & Community Services	8	8
Development Services and Roads	6	6
Housing	6	4
Protective Services	6	5
Waste Management	5	3
Total	60	51

- 7.2 Performance has been maintained or improved for 51 of the 60 comparable statutory performance indicators which equates to 85%. This figure compares to 60% the previous year and therefore marks a significant improvement in the Council's overall performance level.
- 7.3 It should be noted that 18 indicators could not be compared due to indicator definition changes introduced by the Accounts Commission. Data should be more comparable in future years as no changes are currently being made to the definitions. A full colour coded listing of the indicators is provided in Appendix 2. Those items coloured red have deteriorated in performance by 5% or more.

8 **PERFORMANCE LEVELS**

8.1 One of the Council's main monitors of performance levels is to calculate the percentage of times the Council was ranked in the top 16 for each performance indicator as compiled by the Accounts Commission. In 2005/06 the Council finished in the top 16 for 47% of the indicators which was the same as the pervious year. The Council again performed better than the other city authorities:

	<u>2005/06</u>	<u>2004/05</u>
Dundee	47%	47%
Aberdeen	38%	37%
Edinburgh	44%	38%
Glasgow	45%	40%

9.1 **TOP INTER CITY FINISHES**

The Council makes use of a further measure of performance by working out how frequently Dundee finished above the other city authorities for each individual performance indicator. For 2005/06 the figures are :-

	<u>2005/06</u>	<u>2004/05</u>
Dundee	28%	43%
Aberdeen	20%	25%
Edinburgh	29%	11%
Glasgow	24%	24%

The Council still outperforms Aberdeen and Glasgow but Edinburgh is now slightly better than Dundee as its performance for some specific indicators has improved more on the previous year.

10 **CONCLUSION**

10.1 The high Improvement Rating reported by the Accounts Commission is very encouraging. This should be used as a platform to drive out further improvements in service provision. It is anticipated that the Quarterly Performance Reporting system recently adopted by the Council will act as a mechanism to improve performance to even higher levels.

11 **CONSULTATION**

The Chief Executive, the Depute Chief Executives and the Assistant Chief Executive (Community Planning) have been consulted on this report.
