

ITEM No ...5.....

REPORT TO: PENSION SUB-COMMITTEE OF THE POLICY & RESOURCES COMMITTEE & PENSION BOARD– 3rd DECEMBER 2018

REPORT ON: RISK REGISTER

REPORT BY: EXECUTIVE DIRECTOR OF CORPORATE SERVICES

REPORT NO: 383-2018

1 PURPOSE OF REPORT

This report updates the Risk Register for Tayside Pension Fund.

2 RECOMMENDATIONS

The Sub-Committee is asked to approve the updated Quarterly Risk Register for Tayside Pension Fund and asked to note the following changes to the risk profile from previous report:

- Risk 11 – Active Manager Risk

This is the risk that an active investment manager fails to meet their required investment objective, resulting in financial loss to the fund in the short term. Although the fund is well diversified, the recent global market environment has resulted in sharp moves in individual portfolio valuations. As the outlook remains challenging, there is an increased active manager risk at this present time. Risk to the longer term investment performance remains unchanged.

- Risk 12 – Failure to comply with LGPS and other regulations which could result in wrong payments given or estimates provided
- Risk 17 – Failure to communicate properly with stakeholders resulting in members not aware of their rights

Both of the above risks were raised as a result of the Consolidated LGPS (Scotland) Regulations 2018 being issued in June without transitional regulations. Although transitional regulations are still awaited, the letter of comfort issued by the Scottish Public Pensions Agency (SPPA) in July has assisted, and additional clarity has been given from the SPPA as to the key areas of potential discrepancies. Both staff and employers have now been provided with training and guidance to enable correct treatment in the meantime.

3 FINANCIAL IMPLICATIONS

There are no financial implications.

4 INTRODUCTION

The Local Government Pension Scheme Management and Investment of Funds (Scotland) Regulations 2010 requires funds to state the extent to which they comply with guidance given by the Scottish Ministers.

The Scottish Ministers guidance refers to the six revised principles on investment decision making contained within CIPFA publication "Investment Decision Making and Disclosure in the Local Government Pension Scheme: A Guide to the Application of the Myners Principles" (December 2009). Principle 3: Risk and Liabilities (paragraph 98) states that "The annual report of a pension fund should include an overall risk assessment in relation to each of the funds activities and factors expected to have an impact on the financial and reputational health of each fund. This could be done by summarising the contents of a regularly updated risk register. An analysis of the risks should be reported periodically to the committee, together with necessary actions to mitigate risk and assessment of residual risk".

The initial Tayside Superannuation Funds Risk Register (Article III of the Minute of Meeting of the Superannuation Sub-Committee of the Policy and Resources Committee of 21 February 2011, Report No 114-2011 refers) requires conformity with the Statements of Investment Principles for the Tayside

Pension Fund and Tayside Transport Pension Fund. The risk register has in the past been reviewed annually. As per recommendations in a report by Internal Audit, review of the Risk Register is now reported on a quarterly basis.

5 **POLICY IMPLICATIONS**

This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, Equality Impact Assessment and Risk Management.

There are no major issues, other than Risk Management itself, which is addressed through the register.

6 **CONSULTATIONS**

The Chief Executive and Head of Democratic and Legal Services have been consulted in the preparation of this report.
