

## 1 CAIRD PARK STADIUM - REPLACEMENT HAMMER CAGE (AN191-2009)

In order to enhance the rating of the stadium to hold events, a replacement hammer cage is required to be supplied and installed. This will include the removal of the existing cage which does not meet the recognised standards of the UK Athletics. The new cage will be to the appropriate specification which will encourage more use of the facility.

Dundee City Council approached three specialist suppliers to have these works carried out: detailed below are the estimates obtained:-

Newff Athletic Equipment Ltd	£20,585
Pro Athletics LTD	£18,485

Stadia Sports Supplies - did not quote.

The cost of these works can be met from the Quality of Life budget for 2009/2010.

It is recommended the Committee approves the above works and awards the replacement hammer cage to Pro Athletics.
