Appendix 4 – Report to Inform Appropriate Assessment

1. Scheme Documents

This report is a covering document collating the information submitted for the proposed Broughty Ferry Flood Protection Scheme. This is being promoted under the Flood Risk Management (Scotland) Act 2009.

Appendix 1 - Broughty Ferry Flood Protection Scheme - Design Statement

This report has been written to document the Broughty Ferry Flood Protection Scheme design philosophy from inception to the final detailed design. The aim is to provide details of how and why the scheme was originally identified. It will refer to the studies and reports that have been undertaken to examine the site and identify potential solutions. The report will then discuss the development of the design in each of the design areas. Key design decisions have been made based on a mixture of physical constraints, public opinion and conservation area aesthetics, while considering how the area is anticipated to be used in future. The overall aim of this document is to provide a better understanding of why the final designs have been selected for notification to the Public.

Appendix 2 – Description of Operations

This document summarises the Operations to be carried out as part of the flood protection scheme. Each Operation is referenced and corresponds to the drawings listed in Appendix 3. The list of operations and the drawings should be read in conjunction with each other.

Appendix 3 – Description of Operations Drawings and Sections

Fourteen drawings are submitted within this appendix. A list of drawings is given below. The drawings provide information on the scope of the proposed flood protection scheme works. They should be read in conjunction with the List of Operations document in Appendix 2.

15700-500-0 Location Plan

15700-501-0 Operations General Arrangement 1 of 10

15700-502-0 Operations General Arrangement 2 of 10

15700-503-0 Operations General Arrangement 3 of 10

15700-504-0 Operations General Arrangement 4 of 10

15700-505-0 Operations General Arrangement 5 of 10

15700-506-0 Operations General Arrangement 6 of 10

15700-507-0 Operations General Arrangement 7 of 10

15700-508-0 Operations General Arrangement 8 of 10

15700-509-0 Operations General Arrangement 9 of 10

15700-510-0 Operations General Arrangement 10 of 10

15700-511-0 General Arrangement Sections 1 of 3

15700-512-0 General Arrangement Sections 2 of 3

15700-513-0 General Arrangement Sections 3 of 3

Appendix 4 – Report to Inform Appropriate Assessment

This Appendix provides a copy of the Report to Inform Appropriate Assessment (RIAA) for the Broughty Ferry area. This assessment was commissioned by Dundee City Council to investigate the potential impact of the flood protection scheme on the local environmental habitats. The report considers the proposed development in relation to The Conservation (Natural Habitats, &c.) Regulations 1994, as amended, Regulation 48. Providing a conclusion summarising if the works are likely to have a significant effect on the natural habitats in the area.
