PART A

1. The Licensing Objectives

In exercising most of their functions under the Gambling Act 2005, licensing authorities must have regard to the licensing objectives as set out in section 1 of the Act. The licensing objectives are:

- Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime
- Ensuring that gambling is conducted in a fair and open way
- Protecting children and other vulnerable persons from being harmed or exploited by gambling

It should be noted that the Gambling Commission has stated: "The requirement in relation to children is explicitly to protect them from being harmed or exploited by gambling".

This licensing authority is aware that, as per Section 153, in making decisions about premises licences and temporary use notices it should aim to permit the use of premises for gambling in so far as it thinks it:

- in accordance with any relevant code of practice issued by the Gambling Commission
- in accordance with any relevant guidance issued by the Gambling Commission
- reasonably consistent with the licensing objectives and
- in accordance with this statement of licensing principles.

2. Introduction

Dundee City Council is the local authority for the City of Dundee in terms of the Local Government, etc. (Scotland) Act 1994. Dundee City Licensing Board covers the same geographical area and is the licensing authority for the purposes of the Gambling Act 2005. The city's population in 2014 was 148,260 (National Records of Scotland). Dundee is a vibrant and modern city, proud of its tradition and history. A revitalised city centre and retail scene, together with a huge choice of leisure options, is symbolic of a confident and optimistic city. The redevelopment of Dundee Waterfront is reconnecting the city to the River Tay. As part of this development, in 2018 the V & A Museum of Design will be opening to the public. This will be a centre for design and will add further acclaim to the city's culture product. The city is poised for culture to be the catalyst for social and economic growth. A plan of the Council area is attached at Appendix 1.

Licensing authorities are required by the Gambling Act 2005 to publish a statement of the principles which they propose to apply when exercising their functions. This statement must be published at least every three years. The statement must also be reviewed from "time to time" and any amended parts re-consulted upon. The statement must then be re-published.

The Gambling Act requires that the following parties are consulted by Licensing Authorities:

- The Chief Officer of Police;
- One or more persons who appear to the authority to represent the interests of persons carrying on gambling businesses in the authority's area;
- One or more persons who appear to the authority to represent the interests of persons who are likely to be affected by the exercise of the authority's functions under the Gambling Act 2005.

The Board consulted widely upon this statement before finalising and publishing. A list of those persons consulted is contained at Appendix 2.

The full list of comments made and the consideration by the Council of those comments is available by request to: Licensing Office, 21 City Square, Dundee DD1 3BY.

The policy was approved at a meeting of the Licensing Board on 17th January, 2019 and is also available on the Licensing pages on the Council website. Copies can also be obtained at the above address.

Should you have any comments as regards this policy statement please send them via e-mail or letter to the following contact:

Name: Licensing Office
Address: 21 City Square, Dundee
E-mail: licensing.board@dundeecity.gov.uk

It should be noted that this policy statement will not override the right of any person to make an application, make representations about an application, or apply for a review of a licence, as each will be considered on its own merits and according to the statutory requirements of the Gambling Act 2005.

3. Declaration

In producing this statement, this licensing authority declares that it has had regard to the licensing objectives of the Gambling Act 2005, the guidance issued by the Gambling Commission, and any responses from those consulted on the statement.

4. Responsible Authorities

The licensing authority is required by regulations to state the principles it will apply in exercising its powers under Section 157(h) of the Act to designate, in writing, a body which is competent to advise the authority about the protection of children from harm. The principles are:

- the need for the body to be responsible for an area covering the whole of the licensing authority's area; and
- the need for the body to be answerable to democratically elected persons, rather than any particular vested interest group.

In accordance with the suggestion in the Gambling Commission's Guidance for local authorities, this authority designates the Dundee Children and Young Person's Protection Committee for this purpose. This is a multi-agency body consisting of representatives of Dundee City Council, Police Scotland, NHS Tayside, the Procurator Fiscal's office and the Voluntary Sector.

The contact details of all the Responsible Authorities under the Gambling Act 2005 are available via the Council's website at: www.dundeecity.gov.uk

5. Interested parties

Interested parties may make representations in writing about licence applications, or apply for a review of an existing licence. These parties are defined in the Gambling Act 2005 as follows:

"For the purposes of this Part a person is an interested party in relation to an application for or in respect of a premises licence if, in the opinion of the licensing authority which issues the licence or to which the application is made, the person-

- a) lives sufficiently close to the premises to be likely to be affected by the authorised activities,
- b) has business interests that might be affected by the authorised activities, or
- c) represents persons who satisfy paragraph (a) or (b)"

The licensing authority is required by regulations to state the principles it will apply in exercising its powers under the Gambling Act 2005 to determine whether a person is an interested party. The principles are:

Each case will be decided upon its merits. This authority will not apply a rigid rule to its decision making. It will consider the examples of considerations provided in the Gambling Commission's Guidance to Licensing Authorities at Paragraphs 8.11 and 8.13. It will also consider the Gambling Commission's Guidance that "has business interests" should be given the widest possible interpretation and include partnerships, charities, faith groups and medical practices (Para. 6.25).

Interested parties can be persons who are democratically elected such as councillors, MP's and MSP's. No specific evidence of being asked to represent an interested person will be required as long as the councillor/MP/MSP represents the ward or constituency likely to be affected. Likewise, community councils likely to be affected will be considered to be interested parties. Other than these however, this authority will generally require written evidence that a person/body (e.g. an advocate / relative) 'represents' someone who either lives sufficiently close to the premises to be likely to be affected by the authorised activities and/or has business interests that might be affected by the authorised activities.

If individuals wish to approach councillors to ask them to represent their views, then care should be taken that the councillors are not members of the Licensing Board.

6. Exchange of Information

Licensing authorities are required to include in their statements the principles to be applied by the authority in exercising the functions under sections 29 and 30 of the Act with respect to the exchange of information between it and the Gambling Commission, and the functions under section 350 of the Act with respect to the exchange of information between it and the other persons listed in Schedule 6 to the Act.

The principle that this licensing authority applies is that it will act in accordance with the provisions of the Gambling Act 2005 in its exchange of information which includes the provision that the Data Protection Act 1998 will not be contravened. The licensing authority will also have regard to the advice issued by the Gambling Commission to local authorities on this matter, as well as any relevant regulations issued by the Secretary of State under the powers provided in the Gambling Act 2005.

Should any protocols be established as regards information exchange with other bodies then they will be made available.

7. Enforcement

Licensing authorities are required under the Gambling Act 2005 to state the principles to be applied by the authority in exercising the functions under Part 15 of the Act with respect to the inspection of premises; and the powers under section 346 of the Act to institute criminal proceedings in respect of the offences specified.

This licensing authority will be guided by the Gambling Commission's Guidance for local authorities and will endeavour to be:

- Proportionate: regulators should only intervene when necessary, remedies should be appropriate to the risk posed, and costs identified and minimised;
- Accountable: regulators must be able to justify decisions, and be subject to public scrutiny;
- Consistent: rules and standards must be joined up and implemented fairly;
- Transparent: regulators should be open, and keep regulations simple and user friendly; and
- Targeted: regulation should be focused on the problem, and minimise side effects.

As per the Gambling Commission's Guidance for local authorities this licensing authority will endeavour to avoid duplication with other regulatory regimes so far as possible.

This licensing authority will also, as recommended by the Gambling Commission's Guidance to Licensing Authorities, adopt a risk-based inspection programme. Premises will be subject to inspection, the frequency of which will be determined by the risks posed, ie. those premises considered to pose the greatest risk will be subject to more frequent inspections than those presenting a lower risk.

The main enforcement and compliance role for this licensing authority in terms of the Gambling Act 2005 will be to ensure compliance with the premises licences and other permissions which it authorises. The Gambling Commission will be the enforcement body for the operating and personal licences. It is also worth noting that concerns about manufacture, supply or repair of gaming machines will not be dealt with by the licensing authority as such but will be notified to the Gambling Commission, always bearing in mind that the licensing authority is also the enforcement authority for the purposes of the Health and Safety at Work etc Act 1974 and associated regulations, and will therefore will retain an interest in that capacity.

This licensing authority will also keep itself informed of developments as regards the principles of better regulation as they apply to Scottish Local authorities.

Bearing in mind the principle of transparency, this licensing authority's enforcement/compliance protocols/written agreements will be available upon request to the licensing department (e-mail: licensing board@dundeecity.gov.uk). Our risk methodology will also be available upon request.

8. Licensing Authority functions

Licensing Authorities are required under the Act to:

- Be responsible for the licensing of premises where gambling activities are to take place by issuing *Premises Licences*
- Issue Provisional Statements
- Regulate *members' clubs* and *miners' welfare institutes* who wish to undertake certain gaming activities via issuing Club Gaming Permits and/or Club Machine Permits
- Issue *Club Machine Permits* to *Commercial Clubs*
- Grant permits for the use of certain lower stake gaming machines at *Unlicensed Family Entertainment Centres*
- Receive notifications from alcohol – Licensed premises for the use of 2 or fewer gaming machines
- Issue Licensed Premises Gaming Machine Permits for alcohol-licensed premises where there are more than 2 machines.
- Register *small society lotteries* below prescribed thresholds
- Issue *Prize Gaming Permits*
- Receive and Endorse *Temporary Use Notices*
- Receive *Occasional Use Notices*
- Provide information to the Gambling Commission regarding details of licences issued (see section above on 'information exchange')
- Maintain registers of the permits and licences that are issued under these functions

It should be noted that local licensing authorities will not be involved in licensing remote gambling at all. This will fall to the Gambling Commission via operating licences.

9. Local Area Profile

Paragraph 6.47 of the Commission's Guidance suggests that a licensing authority may find it useful to complete its own assessment of the local environment as a means of 'mapping out' local areas of concern, which can be reviewed and updated to reflect changes to the local landscape. Such an assessment is referred to in the Guidance as a local area profile.

The Board notes that it is not required to complete a local area profile. The Board takes the view that at present the landscape of gambling in the city of Dundee does not necessitate the carrying out of a local area profile. The Board considered that the terms of its Policy provides sufficient clarity for operators as to the relevant factors in its decision making. The position may change in future and the Board may look to amend tis policy to include a local area profile. Meantime the Board will continue its engagement with responsible authorities and licensees.

10. Risk Assessments

The Board notes Social Responsibility condition 10.1.1 of the Commission's Licence Conditions and Codes of Practice which places an obligation on all non-remote casino, adult gaming centre, bingo, bingo, family entertainment centre, betting and remote betting intermediary (trading room only) licences, except non-remote general betting (limited) and betting intermediary licences to carry out local risk assessments. The condition will have effect from 6th April, 2016.

The condition requires licensees to "assess the local risks to the licensing objectives posed by the provision of gambling facilities at each of their premises, and have policies, procedure and control measures to mitigate those risks". In carrying out the risk assessments "licensees must take into account relevant matters identified in the licensing authority's statement of licensing policy".

Condition 10.1.1 is supported by an ordinary condition which states that "Licensees should share their risk assessment with licensing authorities when applying for a premises licence or applying for a variation to existing licensed premises, or otherwise on request."

Taking cognisance of the Commission's Guidance at paragraph 6.45 the Board will expect licensees to produce local risk assessments when making application for a new premises licence or variation of a premises licence. In addition, the Board will require provision of a risk assessment where there are concerns prompted by new or existing risks to the licensing objectives and will expect licensees to have clear measures in place to address specific concerns.

PART B PREMISES LICENCES

1. General Principles

Premises licences will be subject to the requirements set-out in the Gambling Act 2005 and regulations, as well as specific mandatory and default conditions which are detailed in regulations issued by the Secretary of State. Licensing authorities are able to exclude default conditions and also attach others, where it is believed to be appropriate.

(i) Decision-making

This licensing authority is aware that in making decisions about premises licences it should aim to permit the use of premises for gambling in so far as it thinks it:

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with this statement of licensing principles.

It is appreciated that as per the Gambling Commission's Guidance to Licensing Authorities "moral or ethical objections to gambling are not a valid reason to reject applications for premises licences" (except as regards any 'no casino resolution' - see section on Casinos below – page 10) and also that unmet demand is not a criterion for a licensing authority.

The licensing authority also notes Gambling Commission guidance on ensuring that betting is the primary activity of licensed premises. Gaming machines may be made available for use in licensed betting premises only at times when there are also sufficient facilities for betting available. Operators will need to demonstrate that betting will continue to be the primary activity of the premises when seeking variations to licences.

In making this determination, this licensing authority will have regard to the six indicators of betting as a primary gambling activity.

- The offer of established core products (including live event pictures and bet range)
- The provision of information on products and events
- The promotion of gambling opportunities and products
- The actual use made of betting facilities
- The size of premises
- The delivery of betting facilities

(ii) Definition of "premises"

Premises is defined in the Act as "any place". Different premises licences cannot apply in respect of a single premises at different times. However, it is possible for a single building to be subject to more than one premises licence, provided they are for different parts of the building and the different parts of the building can be reasonably regarded as being different premises. Whether different parts of a building can properly be regarded as being separate premises will always be a question of fact in the circumstances. However, the Gambling Commission does not consider that areas of a building that are artificially or temporarily separate can be properly regarded as different premises, for example by ropes or moveable partitions.

This licensing authority takes particular note of the Gambling Commission's Guidance to Licensing Authorities which states that:

- licensing authorities should take particular care in considering applications for multiple licences for a building and those relating to a discrete part of a building used for other (non-gambling) purposes. In particular they should be aware that entrances and exits from parts of a building covered by one or more licences should be separate and identifiable so that the separation of different premises is not compromised and that people do not 'drift' into a gambling area. In this content, it should normally be possible to access the premises without going through another licensed premises or premises with a permit.
- licensing authorities should pay particular attention to applications where access to the licensed premises is through other premises (which themselves may be licensed or unlicensed). Clearly, there will be specific issues that authorities should consider before granting such applications, for example, whether children can gain access; compatibility of the two establishments; and ability to comply with the requirements of the Act. But, in addition an overriding consideration should be whether, taken as a whole, the co-location of the licensed premises with other facilities has the effect of creating an arrangement that otherwise would, or should, be prohibited under the Act.
- Premises should be configured so that children are not invited to participate in, have accidental access to, or closely observe gambling where they are prohibited from participating.
- Customers should be able to participate in the activity named on the premises licence.

(iii) Premises "ready for gambling"

The Guidance states that a licence to use premises for gambling should only be issued in relation to premises that the licensing authority can be satisfied are going to be ready to be used for gambling in the reasonably near future, consistent with the scale of building or alterations required before the premises are brought into use.

If the construction of a premises is not yet complete, or if they need alteration, or if the applicant does not yet have a right to occupy them, then an application for a provisional statement should be made instead. In deciding whether a premises licence can be granted where there are outstanding construction or alteration works at a premises, this authority will determine applications on their merits, applying a two stage consideration process:-

- First, whether the premises ought to be permitted to be used for gambling.
- Second, whether appropriate conditions can be put in place to cater for the situation that the premises are not yet in the state in which they ought to be before gambling takes place.

Applicants should note that this authority is entitled to decide that it is appropriate to grant a licence subject to conditions, but it is not obliged to grant such a licence.

More detailed examples of the circumstances in which such a licence may be granted can be found at paragraphs 7.60-7.67 of the Guidance.

(iv) Location

This licensing authority is aware that the expected demand for the facilities proposed to be provided cannot be considered with regard to the location of premises but that considerations in terms of the licensing objectives can. As per the Gambling Commission's Guidance, this authority will pay particular attention to the protection of children and vulnerable persons from being harmed or exploited by gambling, as well as issues of crime and disorder. Should any specific policy be decided upon as regards areas where gambling premises should not be located, this statement will be updated. It should be noted that any such policy does not preclude any application being made and each application will be decided on its merits, with the onus upon the applicant to show how potential concerns can be overcome.

(v) Planning:

The Gambling Commission Guidance to Licensing Authorities states:

7.60 - In determining applications the licensing authority has a duty to take into consideration all relevant matters and not to take into consideration any irrelevant matters, i.e. those not related to gambling and the licensing objectives. One example of an irrelevant matter would be the likelihood of the applicant obtaining planning permission or building regulations approval for their proposal.

This authority will not take into account irrelevant matters as per the above guidance. In addition this authority notes the following excerpt from the Guidance:

7.67 - When dealing with a premises licence application for finished buildings, the licensing authority should not take into account whether those buildings have or comply with the necessary planning or building consents. Those matters should be dealt with under relevant planning control and building regulation powers, and not form part of the consideration for the premises licence. Section 210 of the 2005 Act prevents licensing authorities taking into account the likelihood of the proposal by the applicant obtaining planning or building consent when considering a premises licence application. Equally the grant of a gambling premises licence does not prejudice or prevent any action that may be appropriate under the law relating to planning or building.

(vi) Duplication with other regulatory regimes

This licensing authority will seek to avoid any duplication with other statutory / regulatory systems where possible, including planning. This authority will not consider whether a licence application is likely to be awarded planning permission or building regulations approval, in its consideration of it. It will though, listen to, and consider carefully, any concerns about conditions which are not able to be met by licensees due to planning restrictions, should such a situation arise.

(vii) Licensing objectives

Premises licences granted must be reasonably consistent with the licensing objectives. With regard to these objectives, this licensing authority has considered the Gambling Commission's Guidance to local authorities and some comments are made below.

Preventing gambling from being a source of crime or disorder, being associated with crime or disorder or being used to support crime - This licensing authority is aware that the Gambling Commission will be taking a leading role in preventing gambling from being a source of crime. The Gambling Commission's Guidance does however envisage that licensing authorities should pay attention to the proposed location of gambling premises in terms of this licensing objective. Thus, where an area has known high levels of organised crime this authority will consider carefully whether gambling premises are suitable to be located there and whether conditions may be suitable such as the provision of door supervisors. This licensing authority is aware of the distinction between disorder and nuisance and will consider factors such as whether police assistance was required and how threatening the behaviour was to those who could see it, so as to make that distinction.

Ensuring that gambling is conducted in a fair and open way - This licensing authority has noted that the Gambling Commission has stated that it would generally not expect licensing authorities to become concerned with ensuring that gambling is conducted in a fair and open way as this will be addressed via operating and personal licences. However, if the Board suspects that gambling is not being conducted in a fair and open way, the Board notes in particular the Commission's comments in its Guidance that the Board ought to bring this to the attention of the Commission. The Board shall endeavour to do so should said suspicion arise.

Protecting children and other vulnerable persons from being harmed or exploited by gambling - This licensing authority has noted that the Gambling Commission's Guidance states that this objective means preventing children from taking part in gambling (as well as restriction of advertising so that gambling products are not aimed at, or are particularly attractive to, children). The licensing authority will therefore consider, as suggested in the Gambling Commission's Guidance, whether specific measures are required at particular premises, with regard to this licensing objective. Appropriate measures may include supervision of entrances / machines, segregation of areas, the installation of CCTV, etc. The local trading standards authority may consider "test entry" by under 18's where there are concerns about particular premises.

This licensing authority will also make itself aware of the Codes of Practice which the Gambling Commission issues as regards this licensing objective, in relation to specific premises such as casinos.

As regards the term "vulnerable persons" it is noted that the Gambling Commission is not seeking to offer a definition but states that "it will for regulatory purposes assume that this group includes people who gamble more than they want to; people who gamble beyond their means; and people who may not be able to make informed or balanced decisions about gambling due to mental impairment alcohol or drugs." This licensing authority will consider this licensing objective on a case by case basis.

(viii) Conditions

Any conditions attached to licences will be proportionate and will be:

- relevant to the need to make the proposed building suitable as a gambling facility;
- directly related to the premises and the type of licence applied for;
- fairly and reasonably related to the scale and type of premises; and
- reasonable in all other respects.

Decisions upon individual conditions will be made on a case by case basis, although there will be a number of measures this licensing authority will consider utilising should there be a perceived need, such as the use of supervisors, appropriate signage for adult only areas etc. There are specific comments made in this

regard under some of the licence types below. This licensing authority will also expect the licence applicant to offer his/her own suggestions as to the way in which the licensing objectives can be met effectively.

This licensing authority will also consider specific measures which may be required for buildings which are subject to multiple premises licences. Such measures may include the supervision of entrances; segregation of gambling from non-gambling areas frequented by children; and the supervision of gaming machines in non-adult gambling specific premises in order to pursue the licensing objectives. These matters are in accordance with the Gambling Commission's Guidance.

This authority will also ensure that where category C or above machines are on offer in premises to which children are admitted:

- all such machines are located in an area of the premises which is separated from the remainder of the premises by a physical barrier which is effective to prevent access other than through a designated entrance;
- only adults are admitted to the area where these machines are located;
- access to the area where the machines are located is supervised;
- the area where these machines are located is arranged so that it can be observed by the staff or the licence holder; and
- at the entrance to and inside any such areas there are prominently displayed notices indicating that access to the area is prohibited to persons under 18.

These considerations will apply to premises including buildings where multiple premises licences are applicable.

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will consider the impact upon the third licensing objective and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter.

It is noted that there are conditions which the licensing authority cannot attach to premises licences which are:

- any condition on the premises licence which makes it impossible to comply with an operating licence condition;
- conditions relating to gaming machine categories, numbers, or method of operation;
- conditions which provide that membership of a club or body be required (the Gambling Act 2005 specifically removes the membership requirement for casino and bingo clubs and this provision prevents it being reinstated; and
- conditions in relation to stakes, fees, winning or prizes.

(ix) Door Supervisors

The Gambling Commission advises in its Guidance to Licensing Authorities that if a licensing authority is concerned that a premises may attract disorder or be subject to attempts at unauthorised access (for example by children and young persons) then it may require that the entrances to the premises are controlled by a door supervisor, and is entitled to impose a condition on a premises licence to this effect.

There is no evidence that the operation of particular gambling premises, eg betting offices, has required door supervisors for the protection of the public. The authority will only impose this requirement in circumstances where there is clear evidence, from the history of trading at specific premises, that such premises cannot be adequately supervised from the counter and that such requirements are both necessary and proportionate.

2. Adult Gaming Centres

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to, for example, ensure that under 18 year olds do not have access to the premises.

This licensing authority may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare.

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

3. (Licensed) Family Entertainment Centres:

This licensing authority will specifically have regard to the need to protect children and vulnerable persons from harm or being exploited by gambling and will expect the applicant to satisfy the authority, for example, that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machine areas.

This licensing authority may consider measures to meet the licensing objectives such as:

- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare.
- Measures / training for staff on how to deal with suspected truant school children on the premises

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

This licensing authority will, as per the Gambling Commission's Guidance, refer to the Commission's website to see any conditions that apply to operating licences covering the way in which the area containing the category C machines should be delineated. This licensing authority is aware of the mandatory and default conditions on these premises licences.

4. Casinos

No Casinos resolution - This licensing authority has not passed a 'no casino' resolution under Section 166 of the Gambling Act 2005, but is aware that it has the power to do so. Should this licensing authority decide in the future to pass such a resolution, it will update this policy statement with details of that resolution.

The Licensing authority is aware of the mandatory and default conditions attaching to casino premises licences. The authority will give careful consideration to any requests for variations to the default opening hours.

Betting machines - This licensing authority will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

5. Bingo premises

This licensing authority notes that the Gambling Commission's Guidance states at Paragraph 18.5 that licensing authorities need to satisfy themselves that bingo can be played in any bingo premises for which they issue a premises licence. This authority also notes that a holder of bingo premises licences may make available for use a number of category B gaming machines not exceeding 20% of the total number of gaming machines which are available for use on the premises. A licence variation must be applied for if operators wish to take advantage of this change to the legislation. Children and young people are allowed into bingo premises; however they are not permitted to participate in the bingo and if category B or C machines are made available for use these must be separated from areas where children and young people are allowed.

6. Betting premises

The Act contains a single class of betting premises licence which enables betting to take place on the premises. The licence holder may make available up to four gaming machines, subject to certain restrictions.

This licensing authority will, as per the Gambling Commission's Guidance, take into account the size of the premises, the number of counter positions available for person-to-person transactions, and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator wants to offer.

While the authority has discretion as to the number, nature and circumstances of use of betting machines, there is no evidence that such machines give rise to regulatory concerns. This authority will consider limiting the number of machines only where there is clear evidence that such machines have been or are likely to be used in breach of the licensing objectives. Where there is such evidence, this authority may consider, when reviewing the licence, the ability of staff to monitor the use of such machines from the counter.

7. Tracks

This licensing authority is aware that tracks may be subject to one or more than one premises licence, provided each licence relates to a specified area of the track. As per the Gambling Commission's Guidance, this licensing authority will especially consider the impact upon the third licensing objective (i.e. the protection of children and vulnerable persons from being harmed or exploited by gambling) and the need to ensure that entrances to each type of premises are distinct and that children are excluded from gambling areas where they are not permitted to enter. Where there is betting on track on 8 days or less in a calendar year, an occasional Use Notice may be issued by the Licensing Authority to permit betting on the premises.

This authority will therefore expect the premises licence applicant to demonstrate suitable measures to ensure that children do not have access to adult only gaming facilities. It is noted that children and young persons will be permitted to enter track areas where facilities for betting are provided on days when dog-racing and/or horse racing takes place, but that they are still prevented from entering areas where gaming machines (other than category D machines) are provided.

This licensing authority may consider measures to meet the licensing objectives such as:

- Proof of age schemes
- CCTV
- Supervision of entrances / machine areas
- Physical separation of areas
- Location of entry
- Notices / signage
- Specific opening hours
- Self-exclusion schemes
- Provision of information leaflets / helpline numbers for organisations such as GamCare

This list is not mandatory, nor exhaustive, and is merely indicative of example measures.

Gaming machines This licensing authority notes the Commission's Guidance that licensing authorities need to consider the location of gaming machines at tracks, and applications for track premises licences will need to demonstrate that, where the applicant holds a pool betting operating licence and is going to use his entitlement to four gaming machines, these machines are located in areas from which children are excluded. Children and young persons are not prohibited from playing category D gaming machines on a track.

Betting machines - This licensing authority will, as per Part 6 of the Gambling Commission's Guidance, take into account the size of the premises and the ability of staff to monitor the use of the machines by children and young persons (it is an offence for those under 18 to bet) or by vulnerable people, when considering the number/nature/circumstances of betting machines an operator proposes to offer.

Applications and plans

The Gambling Act (S51) requires applicants to submit plans of the premises with their application, in order to ensure that the licensing authority has the necessary information to make an informed judgement about whether the premises are fit for gambling. The plan will also be used for the licensing authority to plan future premises inspection activity. (See Guidance to Licensing Authorities, para 20.43).

Plans for tracks do not need to be in a particular scale, but should be drawn to scale and should be sufficiently detailed to include the information required by regulations. (See Guidance to Licensing Authorities, para 20.44).

In the rare cases where the outer perimeter cannot be defined, it is likely that the track in question will not be specifically designed for the frequent holding of sporting events or races. In such cases betting facilities may be better provided through occasional use notices where the boundary premises do not need to be defined.

This authority appreciates that it is sometimes difficult to define the precise location of betting areas on tracks. The precise location of where betting facilities are provided is not required to be shown on track plans, both by virtue of the fact that betting is permitted anywhere on the premises and because of the difficulties associated with pinpointing exact locations for some types of track. Applicants should provide sufficient information that this authority can satisfy itself that the plan indicates the main areas where betting might take place. For racecourses in particular, any betting areas subject to the "five times rule" (commonly known as betting rings) must be indicated on the plan. (See Guidance to Licensing Authorities, para 20.46).

8. Travelling Fairs

It will fall to this licensing authority to decide whether, where category D machines and / or equal chance prize gaming without a permit is to be made available for use at travelling fairs, the statutory requirement that the facilities for gambling amount to no more than an ancillary amusement at the fair is met.

The licensing authority will also consider whether the fair falls within the statutory definition of a travelling fair.

It has been noted that the 27-day statutory maximum for the land being used as a fair, is per calendar year, and that it applies to the piece of land on which the fairs are held, regardless of whether it is the same or different travelling fairs occupying the land. This licensing authority will work with its neighbouring authorities to ensure that land which crosses our boundaries is monitored so that the statutory limits are not exceeded.

9. Provisional Statements

Developers may wish to apply to this authority for provisional statements before entering into a contract to buy or lease property or land to judge whether a development is worth taking forward in light of the need to obtain a premises licence. There is no need for the applicant to hold an operating licence in order to apply for a provisional statement. It is possible to apply for a Provisional Statement in respect of premises that already have a premises licence, either for a different type of gambling or the same type.

S204 of the Gambling Act provides for a person to make an application to the licensing authority for a provisional statement in respect of premises that he or she:-

- expects to be constructed;
- expects to be altered; or
- expects to acquire a right to occupy.

The process for considering an application for a provisional statement is the same as that for a premises licence application. The applicant is obliged to give notice of the application in the same way as applying for a premises licence. Responsible authorities and interested parties may make representations and there are rights of appeal.

In contrast to the premises licence application, the applicant does not have to hold or have applied for an operating licence from the Gambling Commission (except in the case of a track) and they do not have to have a right to occupy the premises in respect of which their provisional application is made.

The holder of a provisional statement may then apply for a premises licence once the premises are constructed, altered or acquired. The licensing authority will be constrained in the matters it can consider when determining the premises licence application, and in terms of representations about premises licence applications that follow the grant of a provisional statement, no further representations from relevant authorities or interested parties can be taken into account unless:-

- they concern matters which could not have been addressed at the provisional statement stage, or
- they reflect a change in the applicant's circumstances

In addition, the authority may refuse the premises licence (or grant it on terms different to those attached to the provisional statement) only by reference to matters:

- which could not have been raised by objectors at the provisional statement stage;
- which in the authority's opinion reflect a change in the operator's circumstances; or
- where the premises has not been constructed in accordance with the plan submitted with the application. This must be a substantial change to the plan and this licensing authority notes that it can discuss any concerns it has with the applicant before making a decision.

10. Reviews:

Requests for a review of a premises licence can be made by interested parties or responsible authorities; however, it is for the licensing authority to decide whether the review is to be carried out. This will be on the basis of whether the request for the review is relevant to the matters listed below, as well as consideration as to whether the request is frivolous, vexatious or whether it will certainly not cause this authority to wish alter/revoke/suspend the licence, or whether it is substantially the same as previous representations or requests for review.

- in accordance with any relevant code of practice issued by the Gambling Commission;
- in accordance with any relevant guidance issued by the Gambling Commission;
- reasonably consistent with the licensing objectives; and
- in accordance with the authority's statement of licensing policy.

The licensing authority can also initiate a review of a licence on the basis of any reason which it thinks is appropriate.

The licensing authority can also initiate a review of a particular premises licence, or a particular class or premises licence on the basis of any reason which it thinks is appropriate.

Once a valid application for a review has been received by the licensing authority, representations can be made by responsible authorities and interested parties during a 28 day period. This period begins 7 days after the application was received by the licensing authority, who will publish notice of the application within 7 days of receipt.

The licensing authority must carry out the review as soon as possible after the 28 day period for making representations has passed.

The purpose of the review will be to determine whether the licensing authority should take any action in relation to the licence. If action is justified, the options open to the licensing authority are:-

- (a) add, remove or amend a licence condition imposed by the licensing authority;
- (b) exclude a default condition imposed by the Secretary of State or Scottish Ministers (e.g. opening hours) or remove or amend such an exclusion;
- (c) suspend the premises licence for a period not exceeding three months; and
- (d) revoke the premises licence.

In determining what action, if any, should be taken following a review, the licensing authority must have regard to the principles set out in Section 153 of the Act, as well as any relevant representations. In particular, the licensing authority may also initiate a review of a premises licence on the grounds that a premises licence holder has not provided facilities for gambling at the premises. This is to prevent people from applying for licences in a speculative manner without intending to use them.

Once the review has been completed, the licensing authority must, as soon as possible, notify its decision to:-

- the licence holder
- the applicant for review (if any)
- the Commission
- any person who made representations
- the chief officer of police or chief constable; and
- Her Majesty's Commissioners for Revenue and Customs

PART C
Permits / Temporary & Occasional Use Notice

1. Unlicensed Family Entertainment Centre gaming machine permits (Schedule 10 paragraph 7)

Where a premises does not hold a premises licence but wishes to provide gaming machines, it may apply to the licensing authority for this permit. It should be noted that the applicant must show that the premises will be wholly or mainly used for making gaming machines available for use (Section 238). Unlicensed FEC's are able to offer only Category D Machines. However, any number of such machines may be made available with such a permit.

The Gambling Act 2005 states that a licensing authority may prepare a *statement of principles* that they propose to consider in determining the suitability of an applicant for a permit and in preparing this statement, and/or considering applications, it need not (but may) have regard to the licensing objectives and shall have regard to any relevant guidance issued by the Commission under section 25. The Gambling Commission's Guidance to Licensing Authorities also states: "In its Licensing Authority Statement of Policy, a licensing authority may include a statement of principles that it proposes to apply when exercising its functions in considering applications for permits....., licensing authorities may want to give weight to matters relating to protection of children." (24.8)

Guidance also states: "...An application for a permit may be granted only if the licensing authority is satisfied that the premises will be used as an unlicensed FEC, and if the chief officer of police has been consulted on the application....Licensing authorities may also consider asking applicants to demonstrate:

- a full understanding of the maximum stakes and prizes of the gambling that is permissible in unlicensed FECs;
- that the applicant has no relevant convictions (those that are set out in Schedule 7 of the Act); and
- that employees are trained to have a full understanding of the maximum stakes and prizes. (24.9)"

It should be noted that a licensing authority cannot attach conditions to this type of permit.

This licensing authority will expect the applicant to show that there are policies and procedures in place to protect children from harm. Harm in this context is not limited to harm from gambling but includes wider child protection considerations. The efficiency of such policies and procedures will each be considered on their merits, however, they may include appropriate measures / training for staff as regards suspected truant school children on the premises, measures / training covering how staff would deal with unsupervised very young children being on the premises, or children causing perceived problems on / around the premises.

2. (Alcohol) Licensed premises gaming machine permits - (Schedule 13 paragraph 4(1))

There is provision in the Act for premises licensed to sell alcohol for consumption on the premises and that have a bar at which alcohol is served automatically to have 2 gaming machines of categories C and/or D. The premises merely need to notify the licensing authority and pay the prescribed fee. The licensing authority can remove the automatic authorisation in respect of any particular premises if:

- provision of the machines is not reasonably consistent with the pursuit of the licensing objectives;
- gaming has taken place on the premises that breaches a condition of section 282 of the Gambling Act (i.e. that written notice has been provided to the licensing authority, that a fee has been provided and that any relevant code of practice issued by the Gambling Commission about the location and operation of the machine has been complied with);
- the premises are mainly used for gaming; or
- an offence under the Gambling Act has been committed on the premises.

If a premises wishes to have more than 2 machines, then it needs to apply for a permit and the licensing authority must consider that application based upon the licensing objectives, any guidance issued by the Gambling Commission under Section 25 of the Gambling Act 2005, and “*such matters as they think relevant.*” This licensing authority considers that “such matters” will be decided on a case by case basis but generally there will be regard to the need to protect children and vulnerable persons from being harmed or being exploited by gambling and will expect the applicant to satisfy the authority that there will be sufficient measures to ensure that under 18 year olds do not have access to the adult only gaming machines. Measures which will satisfy the authority that there will be no access may include the adult machines being in sight of the bar, or in the sight of staff who will monitor that the machines are not being used by those under 18. Notices and signage may also help. As regards the protection of vulnerable persons, applicants may wish to consider the provision of information leaflets / helpline numbers for organisations such as GamCare. The application should be accompanied by a plan showing the location and category of machines intended to be provided.

It is recognised that some alcohol licensed premises may apply for a premises licence for their non-alcohol licensed areas. Any such application would most likely need to be applied for, and dealt with, as an Adult Gaming Centre Premises Licence.

It should be noted that the licensing authority can decide to grant the application with a smaller number of machines and/or a different category of machines than that applied for. Conditions (other than these) cannot be attached.

It should also be noted that the holder of a permit must comply with any Code of Practice issued by the Gambling Commission about the location and operation of the machine.

3. Prize Gaming Permits - (Statement of Principles on Permits - Schedule 14 paragraph 8 (3))

The Gambling Act 2005 states that a licensing authority may “prepare a statement of principles that they propose to apply in exercising their functions under this Schedule” which “may, in particular, specify matters that the licensing authority propose to consider in determining the suitability of the applicant for a permit”.

The applicant should set out the types of gaming that he or she is intending to offer and that the applicant should be able to demonstrate:

- that they understand the limits to stakes and prizes that are set out in Regulations;
- and that the gaming offered is within the law.

In making its decision on an application for this permit the licensing authority does not need to have regard to the licensing objectives but must have regard to any Gambling Commission guidance. This suggests that the Licensing Authority should take into account any relevant convictions of the applicant, the suitability of the premises in relation to their location and issues about disorder.

It should be noted that there are conditions in the Gambling Act 2005 with which the permit holder must comply, but that the licensing authority cannot attach conditions. The conditions in the Act are:

- the limits on participation fees, as set out in regulations, must be complied with;
- all chances to participate in the gaming must be allocated on the premises on which the gaming is taking place and on one day; the game must be played and completed on the day the chances are allocated; and the result of the game must be made public in the premises on the day that it is played;
- the prize for which the game is played must not exceed the amount set out in regulations (if a money prize), or the prescribed value (if non-monetary prize); and
- participation in the gaming must not entitle the player to take part in any other gambling.

4. Club Gaming and Club Machines Permits

Members Clubs and Miners' welfare institutes (but not Commercial Clubs) may apply for a Club Gaming Permit or a Club Gaming machines permit. The Club Gaming Permit will enable the premises to provide gaming machines (3 machines of categories B, C or D), equal chance gaming and games of chance as set-out in regulations. A Club Gaming machine permit will enable the premises to provide gaming machines (3 machines of categories B, C or D). Commercial clubs may apply for a Club Gaming Machine Permit.

This licensing authority notes that the Gambling Commission's Guidance states:-

25.46 The LA has to satisfy itself that the club meets the requirements of the Act to obtain a club gaming permit. In doing so it will take account a number of matters as outlined in sections 25. 44-25.48 of the Gambling Commission's Guidance. These include the constitution of the club, the frequency of gaming, and ensuring that there are more than 25 members.

The club must be conducted "wholly or mainly" for purposes other than gaming, unless the gaming is permitted by separate regulations. The Secretary of State has made regulations and these cover bridge and whist clubs.

The Commission Guidance also notes that "licensing authorities may only refuse an application on the grounds that:

- (a) the applicant does not fulfil the requirements for a members' or commercial club or miners' welfare institute and therefore is not entitled to receive the type of permit for which it has applied;
- (b) the applicant's premises are used wholly or mainly by children and/or young persons;
- (c) an offence under the Act or a breach of a permit has been committed by the applicant while providing gaming facilities;
- (d) a permit held by the applicant has been cancelled in the previous ten years; or
- (e) an objection has been lodged by the Commission or the police.

There are statutory conditions on club gaming permits that no child uses a category B or C machine on the premises and that the holder complies with any relevant provision of a code of practice about the location and operation of gaming machines.

5. Temporary Use Notices

Temporary Use Notices allow the use of premises for gambling where there is no premises licence but where a gambling operator wishes to use the premises temporarily for providing facilities for gambling.

Premises that might be suitable for a Temporary Use Notice, according to the Gambling Commission, would include hotels, conference centres and sporting venues.

The licensing authority can only grant a Temporary Use Notice to a person or company holding a relevant operating licence, i.e. a non-remote casino operating licence.

The Secretary of State has the power to determine what form of gambling can be authorised by Temporary Use Notices, and at the time of writing this Statement the relevant regulations (SI no 3157; The Gambling Act 2005 (Temporary Use Notices) Regulations 2007) state that Temporary Use Notices can only be used to permit the provision of facilities or equal chance gaming, where the gaming is intended to produce a single winner, which in practice means poker tournaments.

There are a number of statutory limits as regards Temporary Use Notices. The meaning of “premises” in Part 8 of the Act is discussed in Part 7 of the Gambling Commission Guidance to Licensing Authorities. As with “premises”, the definition of “a set of premises” will be a question of fact in the particular circumstances of each notice that is given. In the Act “premises” is defined as including “any place”.

In considering whether a place falls within the definition of “a set of premises”, the licensing authority needs to look at, amongst other things, the ownership/occupation and control of the premises.

This licensing authority expects to object to notices where it appears that their effect would be to permit regular gambling in a place that could be described as one set of premises, as recommended in the Gambling Commission’s Guidance to Licensing Authorities.

6. Occasional Use Notices

The Licensing Authority has very little discretion as regards these notices aside from ensuring that the statutory limit of 8 days in a calendar year is not exceeded. This licensing authority will though consider the definition of a “track” and whether the applicant is permitted to avail him/herself of the notice. This licensing authority will also ensure that no more than 8 OUNs are issued in one calendar year in respect of any venue.

7. Small Society Lotteries

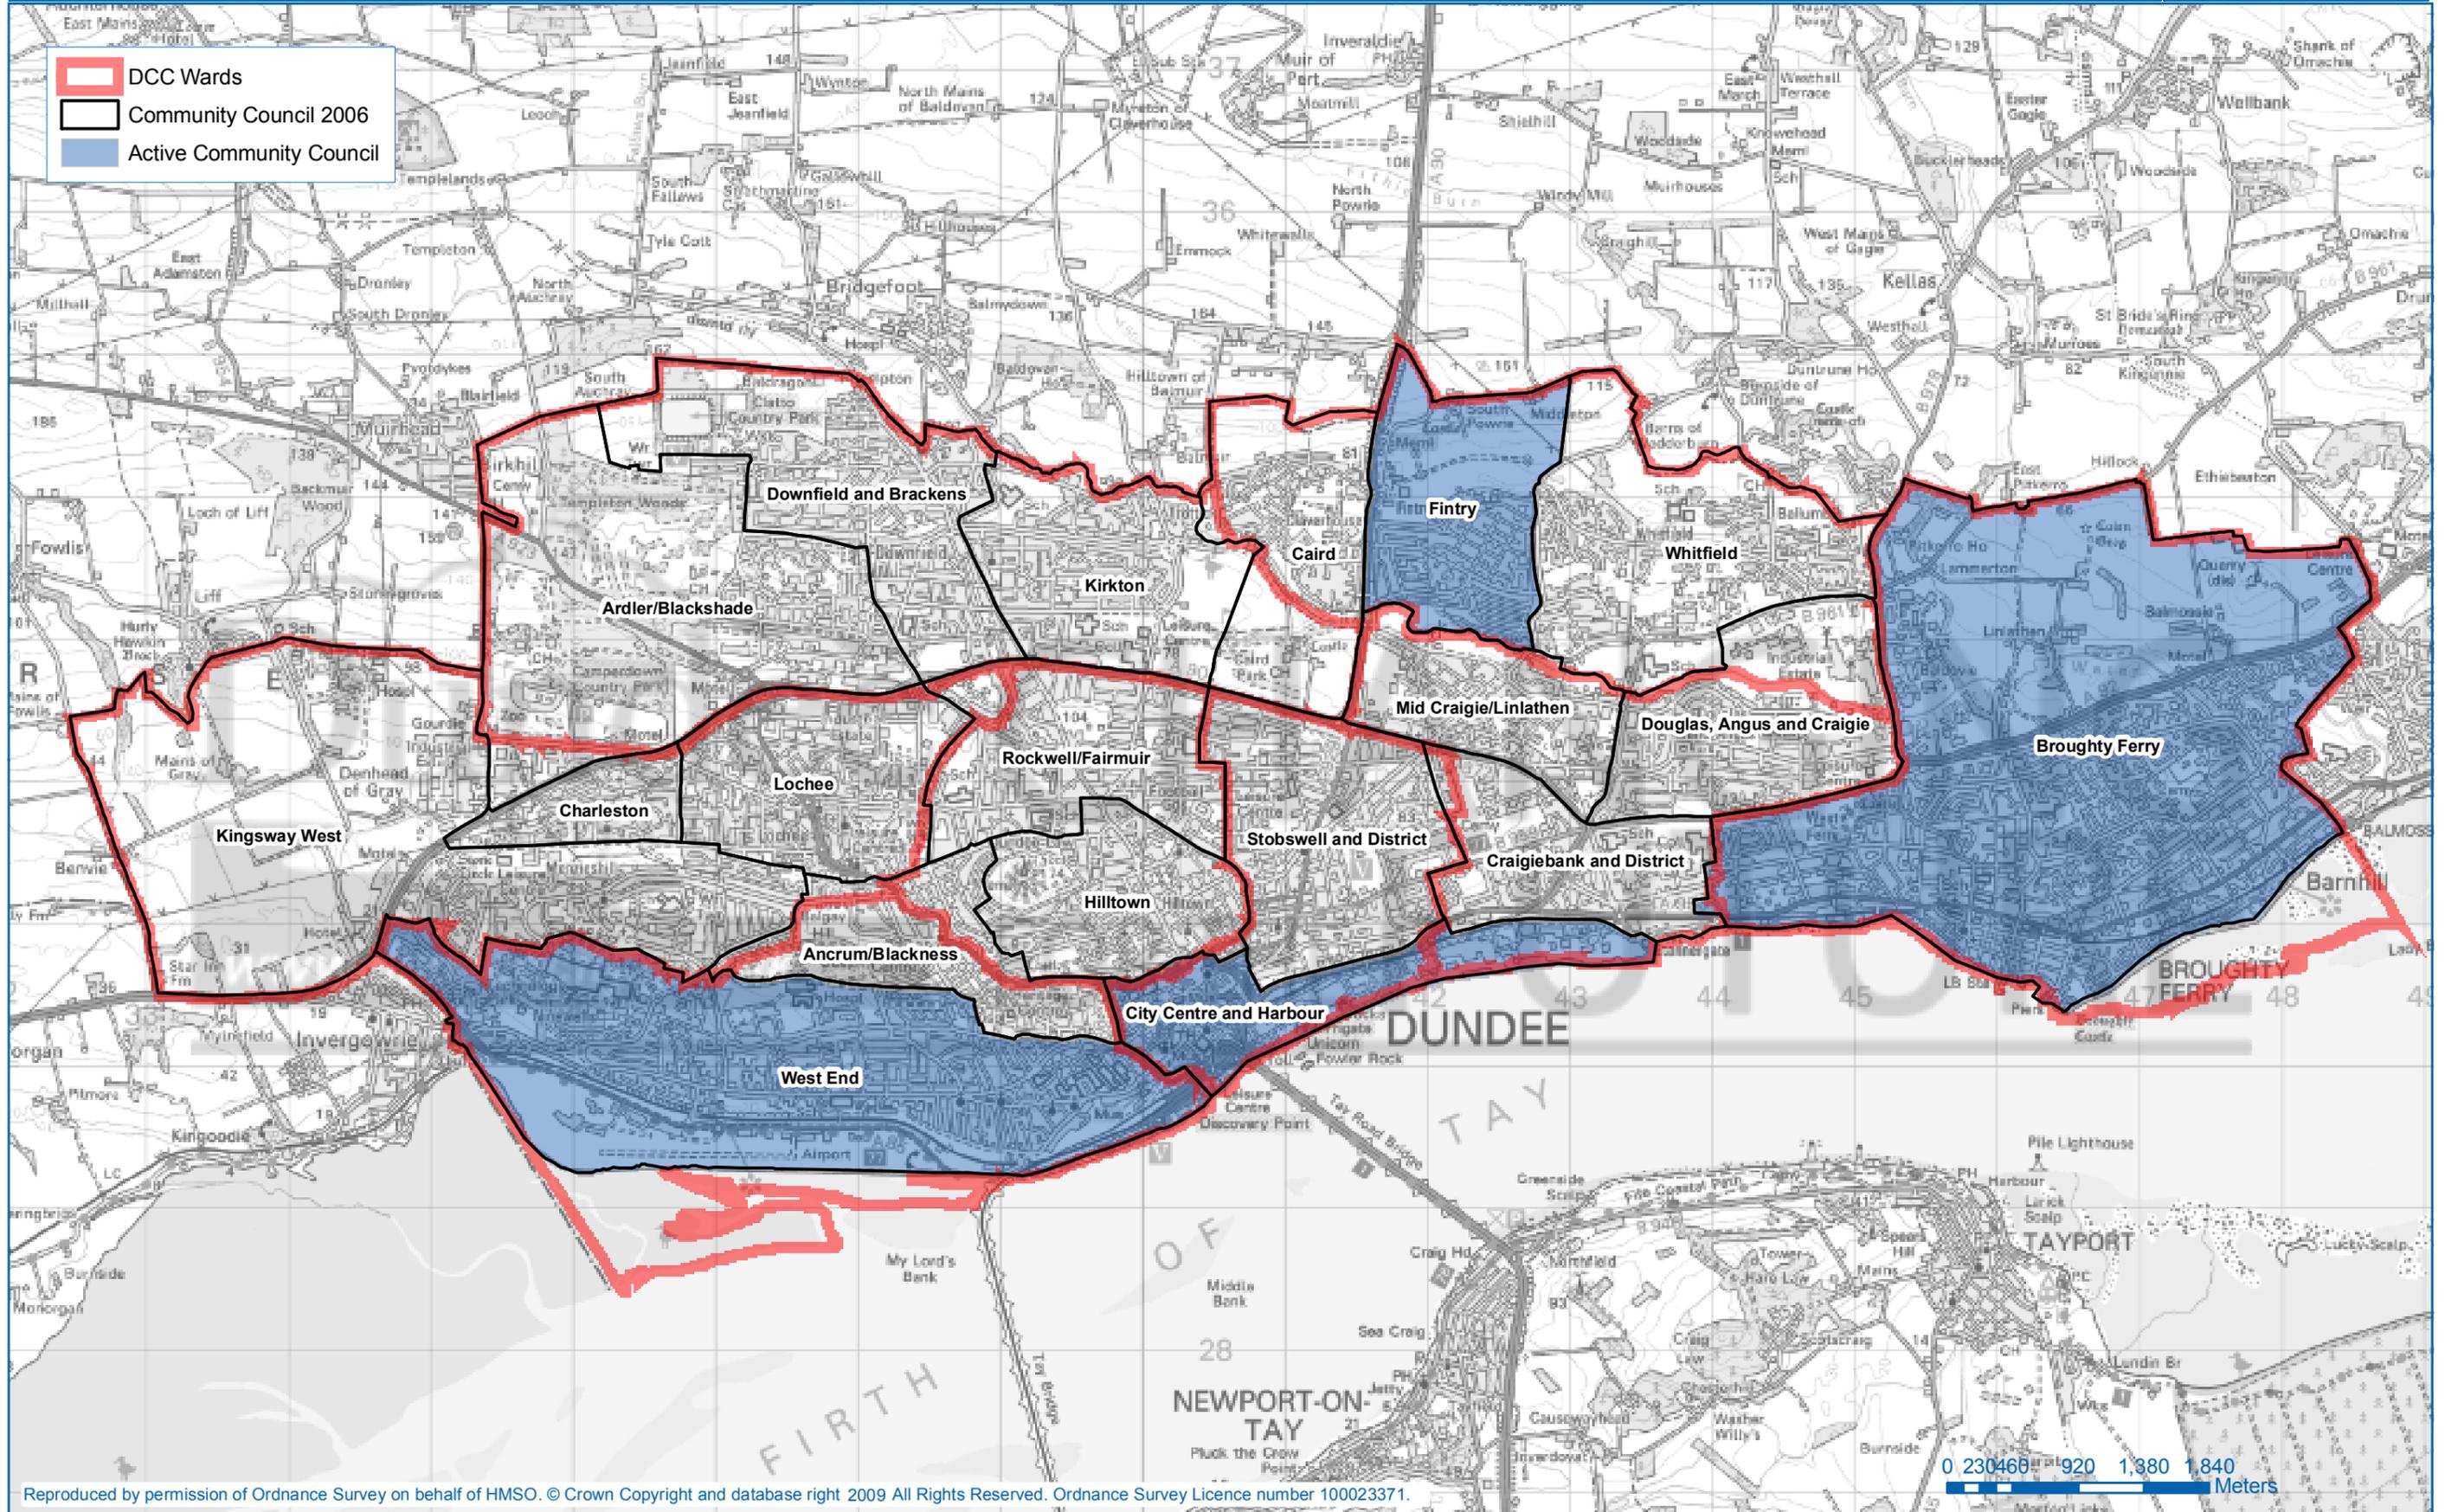

The licensing authority will adopt a risk based approach towards its enforcement responsibilities for small society lotteries. This authority considers that the following list, although not exclusive, could affect the risk status of the operator:-

- submission of late returns (returns must be submitted no later than three months after the date on which the lottery draw was held)
- submission of incomplete or incorrect returns
- breaches of the limits for small society lotteries

Non-commercial gaming is permitted if it takes place at a non-commercial event, either as an incidental or principal activity at the event. Events are non-commercial if no part of the proceeds is for private profit or gain. The proceeds of such events may benefit one or more individuals if the activity is organised:-

- by, or on behalf of, a charity or for charitable purposes
- to enable participation in, or support of, sporting, athletic or cultural activities
