

3 REVISION TO WAITING RESTRICTIONS (AN30-2019)

With reference to Article II(iii) of the minute of the Policy and Resources Committee of 21st February, 2019, the Committee is asked to approve a revision in respect of on-street parking:-

- 1 It is proposed that in the on-street parking area behind the new Railway Station, (Greenmarket East Leg) the tariff will be amended so that there will be an option of 20 minutes, 40 minutes and 60 minute stays. Currently the only tariff available is for a 60 minute stay, following feedback from users and validated by City Development officers observations this change will offer greater flexibility for visitors who may be parking briefly to meet or drop off friends or family from the station. This change will bring this area of on-street provision into line with nearly all other city centre on-street parking and authority to commence this variation is sought.
