

5 FRIENDS OF WESTERN CEMETERY (AN377-2006)

The Leisure and Communities Department have been approached by the West End Community Council in respect of setting up a Friends of Western Cemetery Group. The aims and objectives of the group would be to work with the council Officers in the development and involvement in the improvement of the cemetery for visitors and the environment in general. The "Friends" group have indicated they would wish to work with the Leisure and Communities Department in relation to maximising external funding for improvements such as the interpretation, landscape and headstone restoration etc.

It is recommended that it be remitted to the Director of Leisure and Communities to work with the Friends of Western Cemetery with their proposals in addition to identifying early action where there can be joint working and bring forward the Master Plan for further consideration by this Committee.
