

4 FOOD STANDARDS AGENCY (AN387-2004)

Dundee City Council's application to the Food Standards Agency for funding to introduce Food Safety Management Procedures based on Hazard Analysis and Critical Control Point Principles has been successful.

The successful bid for £45,178.00 per annum (for two years) is to be used for training the proprietors and key staff of catering establishments within Dundee to meet the requirements of new food safety legislation due to be introduced in January 2006.

The training will be carried out in conjunction with Dundee College, with the Environmental Health and Trading Standards' food safety staff providing additional mentoring.

The training will complement the existing food safety projects promoted by the Council and will assist in ensuring the continued provision of safe and wholesome food for the city's citizens.
