

## **7 SCOTLAND'S HEALTH AT WORK (AN416-2004)**

Following submission of a portfolio of evidence and assessment visits held on 7th and 13th October 2004, the Communities Department has been successful in achieving the bronze standard with effect from 15th October 2004.

It is the aim of Scotland's Health at Work to make the active promotion of good health an integral part of Scottish corporate culture and the Communities Department has contributed to this in a positive manner.

This award is valid for three years, during which time it is expected that the department will maintain its bronze activity. The Communities Department will now work towards the silver award. The silver criteria will build on the department's existing good practice and will help target activity in line with needs.
