

4 LOCHEE HIGH STREET ENVIRONMENTAL IMPROVEMENTS - SOUTH LOCHEE HIGH STREET SIGNALISED JUNCTION (AN46-2010)

Reference is made to Article X of the minute of meeting of this Committee of 28th September, 2009, wherein the City Engineer was authorised to appoint Tayside Contracts to carry out environmental improvement works to Lochee High Street.

The main works are nearing completion and additional signalised junction works at the south end of Lochee High Street have now been identified that require to be carried out as part of the required works within the Lochee Physical Regeneration Framework. The City Engineer has obtained a quotation from Tayside Contracts which demonstrates favourable rates for carrying out these works as part of the above contract and it is recommended that this be accepted.

The overall costs amount to £265,000 including £20,000 for professional fees and £22,458 for contingencies. The Director of Finance advises that the expenditure can be met from 2009/10, 2010/2011 City Development Capital Allowances.

The Committee is requested to authorise the City Engineer to instruct these works.
