

5 TENDERS FOR THE RECYCLING OF MIXED METALS, PLASTICS AND CARTONS (BEING PROGRESSED) (AN58-2018)

It is reported that, given the limited timescales available, the Executive Director of Neighbourhood Services, in consultation with the Convener, Lord Provost Borthwick, the Labour Group, the Conservative Group and Liberal Democrat Group Spokespersons, accepted an offer from Wyllie Recycling Ltd for the recycling of mixed metals, plastics and cartons commencing 1st October, 2018.

It is reported that three bids were received in response to the ITQ – two of which detailed that any tonnage received from DCC would incur a gate fee and a third offering a rebate for this material. In accordance with the terms of the ITQ each supplier listed their contamination threshold for that named price and stated the cost to the Council if contamination were to rise above the threshold. The table below demonstrates that Wyllie Recycling Ltd were therefore the most economically advantageous bidder:

BIDDER	COST	CONDITIONS	LOCATION
Wyllie Recycling Ltd	£1 per tonne REBATE	If contamination rises above 10% costs applied (£60/tonne)	Perth
Levensat Recycling	£26.72 per tonne COST	If contamination rises above 15% costs increase (up to £101.94/tonne)	Lanark
Binn Skips Ltd	£90.85 per tonne COST	If contamination rises above 16% costs increase (up to £132.50/tonne)	Teeside

The Committee is asked to note the foregoing for information.
