

5 EXTENSION OF PARTNERSHIP AGREEMENT FOR HOUSING REPAIRS SERVICE (AN62-2009)

The Housing Repairs Partnership has defined the operation of the Housing Repairs Service for the period 2004-2009.

It outlines how, through a Partnership of Housing, Dundee Contract Services and Finance, with Dundee Federation of Tenants Associations acting as advisors to the Partners, repairs and maintenance services for Council houses are provided.

The Partnership Agreement is currently the subject of a comprehensive review, drawing on the experience of both internal and external stakeholders, with a view to developing further our measures for Value for Money and Efficiency.

Due to the extensive nature of review process it is requested that Committee approve an extension of not more than three months from April 2009, to allow the completion of the review and further report back to Committee.
