### 6.0 BACKGROUND

Drug Abusers are defined as a priority group by the Scottish Executive as the cost of drug related crime is increasing.

Arrest Referral seeks to provide a service for drug users at the point of arrest as this is often their first contact with the Criminal Justice System. Arrest is a crisis point for the offender and their motivation to address the underlying causes of offending should be greatest.

Arrest referral has been used in England and has demonstrated effectiveness in reducing the cost of drug related crime to the community. Discussions have taken place at a local level between Police, National Children's Home and Social Work. Tayside Police support the proposal of arrest referral being available in Dundee and then to Angus.

Arrest Referral Schemes work to turn people away from their dependence on drugs by the provision of a co-ordinated range of services appropriate to the assessed level of need of the offender.

Perth and Kinross Council, Tayside Police and Scotland Against Drugs presently fund an Arrest Referral scheme. This scheme is managed by the National Children's Home (NCH) Alternatives to Custody Project Leader, who is based in Dundee.

## **7.0 PROPOSAL**

It is proposed that an Arrest Referral Scheme be extended to Dundee. It is expected that the scheme will be in partnership with Tayside Police and NCH and managed by the existing NCH Project Leader.

The aims of this proposal are:

- To target drug abusers as a vulnerable group, identified by the Scottish Executive.
- To provide a community based service that seeks to reduce the level of drug related crime.
- To assist offenders develop skills and attitudes that will facilitate an offence free lifestyle.
- To strengthen the service to drug abusers within partnerships across the three councils.
