4.0 BACKGROUND

4.1 Neighbourhood Services provides a domestic and commercial waste collection and recycling service to over 74,000 properties and 2,000 commercial customers within the city of Dundee. New or replacement containers require to be issued for a number of reasons including where new properties are built; to service new commercial customers; for householders who wish to participate in recycling schemes or request additional recycling containers or where containers have been lost or damaged. Where possible, refurbished containers will be provided, however new containers require to be added to the Council's stock to meet demands.

4.2 Demand for wheeled bins continues to be high each year with the enhancement of recycling services across the city. In 2014/15 8,342 requests were made to the department; 9,029 in 2015/16 and 6,929 in 2016/17. Increasing use of on street Eurobins for flatted properties continues to be implemented city wide.

4.3 All containers will be supplied via a pre-tendered framework from Scotland Excel 03-13 Refuse and Recycling Containers.

4.3 Direct delivery is made by suppliers to the Marchbanks Depot.
