1. Introduction

Dundee City Council administers the Local Government Pension Scheme (LGPS) on behalf of employers participating in the Scheme through the Tayside Pension Fund (the Fund).

The LGPS is a statutory scheme and its regulations are laid by the Scottish Government; the current regulations are laid in the Local Government Pension Scheme (Scotland) Regulations 2018. A copy can be viewed at <https://www.scotlgpsregs.org/schemeregs/lgpsregs2018/timeline.php>.

The Fund is committed to providing high quality pension service to both members and employers and particularly to ensure members receive their correct pension benefit entitlement.

These aims are best achieved where the Fund and employers work in partnership and are clear about their respective roles and responsibilities. The quality of service provided to members is therefore dependent on both parties meeting high standards of accuracy and timeliness of information supplied

This document sets out the duties and statutory responsibilities of the employer (Appendix A), the Fund (Appendix B) and also specifies the level of services the parties will provide to each other (Appendices C & D) and the performance measures used to evaluate them (appendix E).

This strategy statement is an over-arching agreement between the Fund and all its employers and as such it is essential that both understand what they are required to do and communicate with each other effectively and in a timely manner. A failure to achieve this can result in:

- members suffering loss and distress
- the pensions regulatory organisations fining and publicly naming and shaming a party that is at fault
- employers' contributions being set at higher levels.

This Strategy is designed to help employers and the Fund work together to improve data quality and reduce the risk of rules breaches that could result in penalties. Its focus is on the timely flow of accurate information between employers and the Fund.

2. Pension Administration Strategy Statement

This strategy statement will be kept under review on an annual basis and revised where appropriate. The statement will be issued to all participating employers.

Strategy Principles - in agreeing this strategy, all parties commit to:

- achieving a high-quality pension service to employees
- continually developing and improving efficient working arrangements
- striving to exceed the Fund's service standards
- an annual report of performance
- keeping the pension administration strategy under review.

3. Roles and responsibilities

- Employer's duties and responsibilities listed in Appendix A
- Fund duties and responsibilities are listed in Appendix B.

4. Service standards and Performance Measures

Service standards in relation to the Employer are shown in Appendix C with performance measures being shown in Appendix E.

It is the employer's responsibility to provide correct information about their members. The Fund is not responsible for checking the accuracy of any information provided by the employer. However,

the Fund will inform the employer of any differences between information provided by the employer and information already provided. Information is to be issued to the Fund using the provided secure online portal and in the agreed format.

From 1st April 2015 the Pensions Regulator became the body responsible for the oversight of effective governance, management and administration of the LGPS. The Regulator has provided that where Funds and scheme employers can be fined for non-compliance.

Service standards in relation to the Fund are shown in Appendix D with performance measures being shown in Appendix E.

The Fund aims to provide the information within the timescales shown, but amended timescales may be agreed in exceptional circumstances at the employer's request.

5. Member Data / Record Keeping

Accurate and up-to-date data is essential to the provision of pension scheme administration. It forms the basis of statutory requirements such as annual benefit statement, pension saving statement, individual member benefit calculations as well as being vital for actuarial and accounting purposes.

The Fund, as controllers of data, are required by data protection legislation to comply with the principles of data minimisation and storage limitation. Personal data we process:

- must be adequate, relevant and limited to what is necessary in relation to the purposes for which it is processed; and
- must not be kept in a form which permits identification of a data subject for longer than is necessary for the purposes for which the personal data is processed

The Fund are obliged to retain certain records (whether in hard copy or electronic form) for various periods of time because:

- there is a statutory obligation to do so; and/or
- the information contained in those records may be necessary for the future (for example, queries may arise about the calculation of benefits paid in the past, and data that may be relevant to a possible legal claim).

The following sets out the measures to comply with the principles of data minimisation and storage limitation in relation to personal data that it holds:

- The Fund holds and processes the following types of personal data in relation to members and beneficiaries of the Fund:
 - contact details, including name, address, telephone numbers and email address
 - identifying details, including date of birth, national insurance number, employee and membership numbers
 - information used to calculate and assess eligibility for benefits (e.g. length of service, membership and salary information)
 - financial information relevant to the calculation or payment of benefits, for example, bank account and tax details
 - information about the member's family, dependents, representatives or personal circumstances
 - information about the member's health, (e.g. to assess eligibility for benefits payable on ill health)
 - information about a criminal conviction if it has resulted in the member owing money to the member's employer or the Fund and the employer or Fund may be reimbursed from the member's benefits
- During any period when personal data is held, personal data will be kept up to date and all reasonable steps will be taken to ensure that inaccurate data is either erased or rectified without delay.
- The Fund will periodically review the personal data that is retained and consider whether it is still required; any personal data that is no longer required will be destroyed.

- Data protection legislation requires retention of personal data for no longer than is necessary in order to fulfil the purpose(s) for which it is processed. Given the long-term nature of pensions, personal data is retained to:
 - comply with legal and regulatory obligations regarding the payment of benefits
 - deal with any questions or complaints that we may receive
 - Personal data is stored for the greater of:
 - such period as the member (or any beneficiary who receives benefits after the member's death) are entitled to benefits from the Fund and for a period of 15 years after those benefits stop being paid
 - 100 years from the member's date of birth
 - 100 years from the date of birth of any beneficiary who received benefits from the Fund after the member's death.

The above considers the guidelines on the retention of personal data as set out by or in the following:

- Information and Records Management Society
- The National Archives
- HMRC compliance handbook manual CH15400
- Lord Chancellor's Code of Practice on the Management of Records issued under Section 46 of the Freedom of Information Act 2000
- Information Commissioner's Office's guidance on storage retention
- The Pension Regulator's code of practice 14 for public service pension schemes
- Members of the Fund and beneficiaries have a right to access and obtain a copy of the personal data that is held, and to ask us to correct personal data if there are any errors or it is out of date or incomplete.
- In certain circumstances a member / beneficiary has the right to:
 - object to the processing of their personal data
 - restrict the processing of their personal data until any errors are corrected
 - transfer their personal data
 - erase their personal data
- If the exercise of the member's/beneficiary's rights would prevent payment of benefit, consideration of retaining a minimised version of that member's/beneficiary's personal data in order to fulfil legal and regulatory obligations.

6. Data Improvement

Member data is considered a key priority, not just by the Fund, but also by the Pensions Regulator and the Fund must submit data quality results to the Pensions Regulator annually. The use of electronic submission of data has improved the quality of data received, however the Fund will continue to work with employers for instances of missing/mismatched data.

The Pensions Regulator (TPR) urges schemes to have effective processes for maintaining and continually improving data, and TPR splits data into two categories: 'Common' and 'Scheme Specific'.

- 'Common' data is data used so that a member can be uniquely identified and consists of things like National Insurance (NI) number.
- 'Scheme Specific' data is data used to accurately calculate member benefits and consists of things like date of leaving and contributions.

TPR requires an annual scheme return about the quality of its data. The percentage of member records passing ALL tests required by TPR on our data extract of November 2024 was:

- Common data 97%
- Scheme-specific data 96%

The Fund are committed to enhancing the accuracy, completeness, and reliability of pension data through a multi-faceted approach. Actuarial valuations will continue to be used to identify anomalies, supported by targeted sense-checking of individual data items using tolerance and consistency limits. The system provider's "Insights" tool will be used not only for annual TPR scheme data return, but also to conduct deeper analysis to identify areas requiring improvement, particularly where data quality has declined year-on-year.

Data collection processes will remain robust, including the continued use of year-end and monthly CARE returns from employers to identify missing notifications of starters and leavers. National databases such as DWP’s ‘Tell Us Once’ service, the National Fraud Initiative, and mortality screening services will be used to verify member information and update records accordingly. Member communications, including benefit statements and newsletters, will be used to identify and cleanse inaccurate data, and undeliverable mail will prompt address verification efforts.

The Fund will enhance member engagement by expanding online access to pension records, enabling updates to personal details and increasing email contact points. Employer support will be strengthened through tailored data improvement plans informed by KPI development, annual consultations on our Pension Administration Strategy, and ongoing communication via our website and newsletters. Training outputs will be expanded to include bespoke sessions. All data collection processes will be clearly documented, regularly reviewed, and subject to audit. Staff training on data management will be increased, and annual certificates of existence will continue to be required for overseas pensioners and those with powers of attorney.

7. Communication

In accordance with the scheme regulations the Fund prepares, reviews and publishes a separate communication policy

8. Monitoring and Reporting

Performance and service standards will be monitored on an ongoing basis, with performance against key performance indicators reported quarterly to the Committee and Pensions Board and published on the Fund website. Annual performance will also be included in the annual report.

9. Discretions

The Funds policy on the exercise of its discretions are set out in a separate policy statement which will be reviewed, amended and published as required.

10. Improving employer performance

The Fund will assist employers in identifying and helping to improve areas of poor performance. The Fund will do this by:

- Reminding employers of the required standards and timescales
- Offering training and guidance
- Offer to meet with the employer to discuss areas of poor performance and how they may be improved.

11. Circumstances where costs maybe recovered as a result of poor performance.

The Local Government Pension Scheme (Scotland) Regulations at section 65 allows the Fund to recharge to the employer the cost of any additional resources they have needed to employ as a result of an employer’s poor performance.

The Fund may make the following charges:

Failure to pay contributions by the 19 th of the month following the deduction for pay.	Interest calculated in accordance with Regulation 66(4) of the LGPS (Scotland) Regulations 2018.
Failure to provide the Fund with end of year schedule by stipulated deadline or the statutory deadline (30 th June). Late submission of this data creates pressure on the Fund being able to meet its statutory requirements of the provision of an annual benefit statement by 31 st August, a Pension	£200 for failing to meet the Fund deadline. (May) £200 for failing to meet Statutory deadline. (30 th June) Where queries regarding missing or mismatched data are not remedied in agreed

Saving Statement by 6 th October, and where applicable submission of data for the actuarial valuation.	timescales a further charge of £1 per member per week may also be levied.
Failure to submit monthly contribution return, in and by the agreed format, by 19 th of the month following deduction of contributions	£50 per occurrence

Where the Fund has determined that the above costs have become payable it will provide the scheme employer with written notice detailing the reasons and the amount due.
