6 MAIN TEXT

6.1 The local authority is required by statute to review its charges for residential accommodation for adults each year. The method of calculating charges is prescribed by regulation and guidance and results in a full economic cost being calculated, including overheads and the cost of capital.

6.2 Each resident has a full assessment of their financial circumstances each year, which determines the amount they are required to contribute to the cost of their care. Only those residents with savings in excess of £16,000 or significant weekly income pay the full standard charge for their care. At present only 2 residents pay the full standard charge. Every resident retains at least £15.45 per week in personal allowance.

7 CONSULTATION

The Director of Finance and Director of Support Services have been consulted in the preparation of this report.

8 BACKGROUND PAPERS
