6. **Background**

- 6.1 The works comprise of the supply and installation of fitness equipment at D.I.S.C. The works are part of a phased programme of fitness equipment improvements which include the removal of spent equipment.

The project will add value to customer experience and initially reduce revenue expenditure on replacement parts and general maintenance.

- 6.2 Reference is made to the minute of this Committee of 14 December 1998 when a similar exercise was undertaken. At that time the works went out to tender but despite efforts to encourage tender submission from a number of companies there was only one tender returned by Powersport International Ltd.

It is therefore proposed that due to the specialist nature of the equipment, in the interest of continuity of existing equipment and the fact that the equipment installed as part of the 1998 – 2001 programme has proved both reliable, resilient and attractive to customers, that the quotation from Powersport International Ltd as detailed below is accepted.

All equipment complies with the Director of Leisure & Arts' requirements and Officers consider the prices to be fair and reasonable.

6.3 The offer received from Powersport International Ltd is as follows:-
