In terms of the percentage of actual capital spend to projected outturn, General Services and Housing HRA Capital as at 31 January 2014 were 81% and 68% respectively, compared with 62% and 68% respectively for the comparable period to 31 January 2013.

4 BACKGROUND

4.1 The Special Policy & Resources Committee of 14 February 2013 approved the 2013/14 Capital Budget for General Services (Report 57-2013). The Capital Plan 2013-2017 is split into the key areas of asset ownership (excluding Council Housing which is dealt with in Housing HRA Capital Plan 2013-2018) and projects included in the Capital Plan 2013-17 are derived from the need to match the asset portfolio with service delivery needs and priorities, and the capital programme is being monitored in conjunction with the asset managers.

The Housing HRA Capital Programme 2013/14 was approved at the Policy & Resources Committee on 28 January 2013 (Report 28-2013). The Housing HRA Capital Budget reflects information contained in Scottish Housing Quality Standard submission.

4.2 Local Authorities from 1 April 2004 are required, by Regulation, to comply with the Prudential Code under Part 7 of the Local Government Act 2003. The Capital Budget for 2013/14 is being monitored within the framework of the Prudential Code.

4.3 The Capital Monitoring report provides detailed information on individual projects contained within the Capital Budget and the impact of expenditure movements on future financial years.

5 GENERAL SERVICES CURRENT POSITION

5.1 Appendix 2 details the actual spend and the latest projected outturns for all projects, detailed by asset portfolios/departments. Appendix 1 summarises this information and shows the latest projection of capital resources required to finance the expenditure.

The latest capital monitoring statement shows a Revised Budget for 2013/14 of £49.377m, a decrease of £1.142m since last month's Capital Monitoring report. The main reasons for this decrease are detailed below.

- 5.1.1 Reduction in expenditure of £260,000 on Barnhill Primary School Extension (Buildings & Property-Education). This expenditure has been rephased to reflect the latest timescales for the project. The expenditure will be required in 2014/15 and will be funded from borrowing.
- 5.1.2 Reduction in expenditure of £230,000 on Creation of Sub Depots (Buildings & Property Environment). This expenditure has been rephased to reflect the latest timescales for the various projects. This expenditure will be required in 2014/15 and will be funded from borrowing.
- 5.1.3 Reduction in expenditure of £154,000 on Community Facilities at Arthurstone Library (Buildings & Property Chief Executive/Corporate Services). This expenditure has been rephased to reflect the latest timescales for the project. This expenditure will be required in 2014/15 and will be funded from borrowing.
- 5.1.4 Reduction in expenditure of £182,000 on Dundee Ice Arena (Buildings & Property Chief Executive/Corporate Services). This expenditure has been rephased to reflect the latest timescales for the programme of works. This expenditure will be required in 2014/15 and will be funded from borrowing.

5.4 Projected capital expenditure as a percentage of projected capital resources is currently standing at 100%.

6 HOUSING HRA - CURRENT POSITION

Appendix 2 details the actual spend and the latest projected outturns within Housing HRA Capital Programme. Appendix 1 summarises this information and shows the latest projection of capital resources required to finance the expenditure.

The latest capital monitoring statement shows a Projected Outturn of £20.680m, a decrease in projected expenditure of £300,000 since last month's capital monitoring report. The main reasons for this decrease are detailed below.

- 6.1.1 Heating, Kitchens and Bathrooms shows a decrease of £115,000 since last month's monitoring report. This is due to revisions to the quantity surveyors' estimates for projects within this programme.
- 6.1.2 Energy Efficiency External Insulation and Cavity Fill Kirk Street projected expenditure has decreased by £320,000 since last months Capital Monitoring which reflects the latest phasing of the project. This expenditure is now projected to be incurred in 2014/15.
- 6.1.3 Disabled Adaptations has increased by £200,000 since last months monitoring report which is due to additional work being required to be undertaken within this programme.
- 6.2 Projected capital expenditure as a percentage of projected capital resources is currently standing at 111%. This variance between expenditure and resources will be met by additional borrowing and slippage.

7 RISK ASSESSMENT

- 7.1 There are a number of risks which may have an impact on the Capital Expenditure programme for 2013/14. The main areas of risk are set out below, together with the mechanisms in place to help mitigate these risks.
- 7.2 Currently, building cost inflation levels are low, however, they can on occasion be relatively high in comparison to general inflation. Therefore delays in scheduling and letting contracts may lead to increases in projected costs. In such an event, every effort will be made to ensure delays are avoided wherever possible and any increase in costs minimised.
- 7.3 Slippage in the Capital programme leads to the need to reschedule projects in the current year and possibly future years, therefore creating problems in delivering the programme on time. For this reason the programme is carefully monitored and any potential slippage is identified as soon as possible and any corrective action taken.

- 7.4 Capital projects can be subject to unforeseen price increases. The nature of building projects is such that additional unexpected costs can occur. The Council is currently experiencing very competitive tenders. Contingencies are built into the budget for each capital project and these will be closely monitored throughout the project.
- 7.5 There is risk associated with projects that are not yet legally committed as the works are not yet tendered for, and there is potential for costs to be greater that the allowance contained within the Capital Plan. As the majority of spend on these projects is in future years, the risk in the current year is not significant. Future years' Capital Programmes will be adjusted to reflect updated cost estimates.
- 7.6 The accurate projection of the value and timing of capital receipts from asset sales is difficult in the current economic climate. There is therefore a risk that the level of capital receipts assumed in the financing of the capital programme will not be achieved. In preparing the capital plan the Council has budgeted for a low level of Capital receipts being achieved. The Council has a Capital Fund which can be used to cover any shortfall, in the short-term, in the level of receipts required. Similarly, additional borrowing can be used to cover any temporary shortfalls in capital receipts.
- 7.7 The amount and timing of capital receipts can also be difficult to accurately project as sales are often conditional on planning permission and other non-financial factors. This is the case even in times of relative economic stability.
- 7.8 General Capital Grant is received from Scottish Government via the Local Government Finance Settlement each year. The level of Grant for 2013/14 and 2014/15 has been announced. The officers are of the view that the projected capital grant assumed within the Capital Plan for 2015/16 and 2016/17 is prudent.
- 7.9 Capital projects must be affordable in terms of their impact on the Council's Revenue Budget. The option appraisal process should ensure that the revenue impact of capital projects has been calculated and reflected in future years' Revenue Budgets.

8 **POLICY IMPLICATIONS**

8.1 This report has been screened for any policy implications in respect of Sustainability, Strategic Environmental Assessment, Anti-Poverty, and Equality Impact Assessment.

There are no major issues.
