Any offer should state the assumed number of housing units to be developed from which a price per unit can be calculated. In the event of detailed planning permission being granted for a greater number of housing units to that stated in the offer, an additional payment shall be made to the seller on the date of entry. The additional payment shall be calculated by multiplying the price per unit by the number of additional units for which planning permission has been granted over and above the number of housing units stated in the offer.

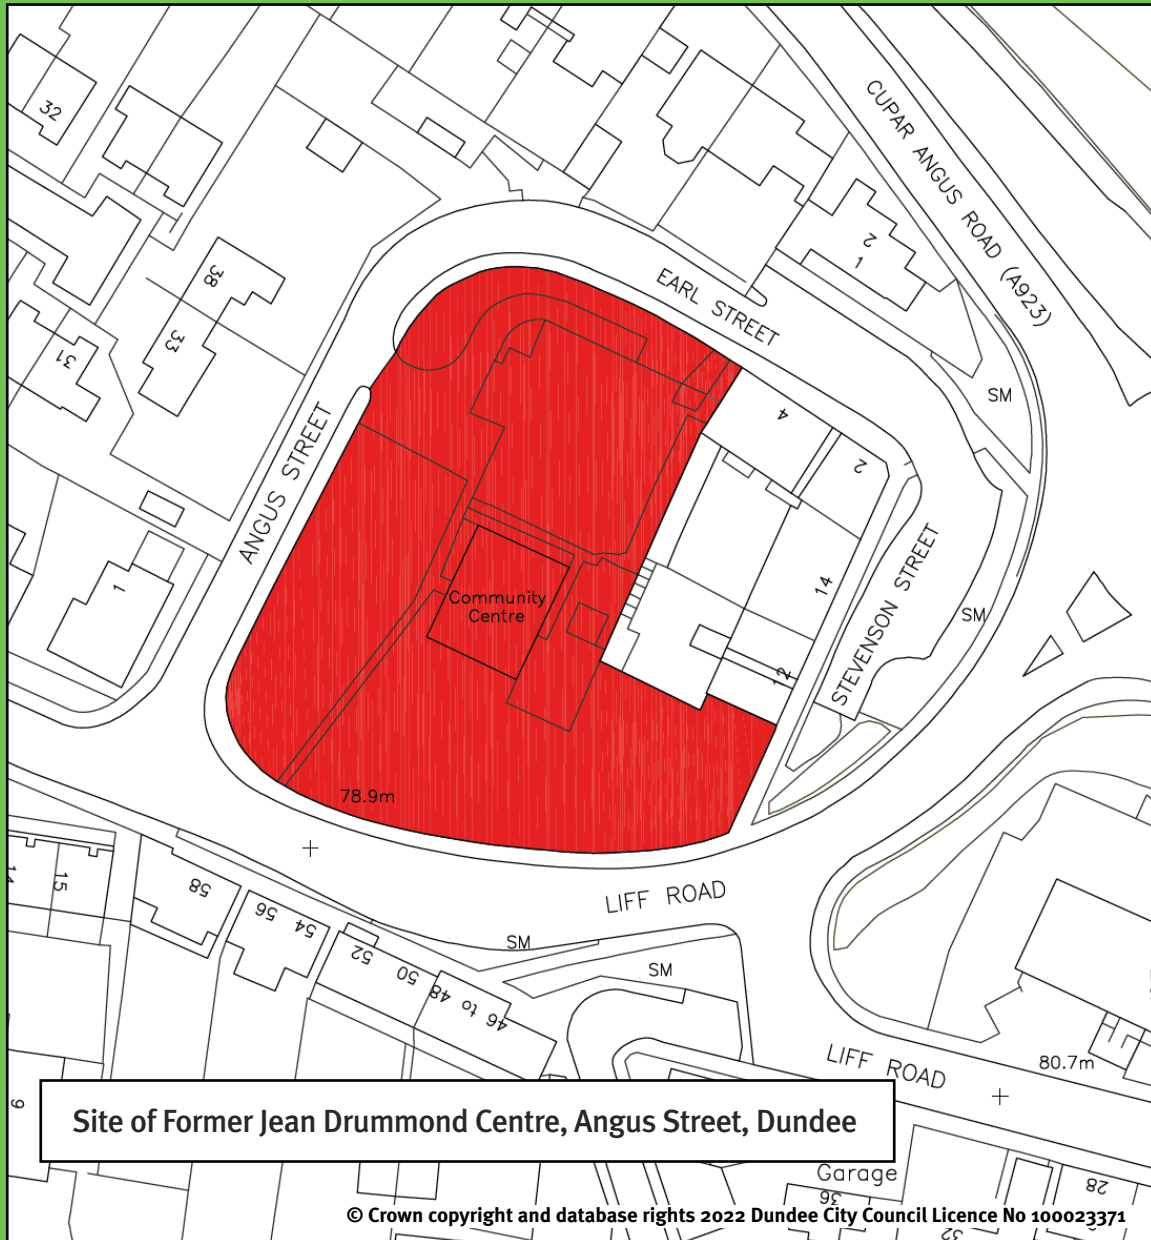

OUTLINE TERMS REQUIRED

Any conditional offer which is subject to receipt of satisfactory planning consent, environmental surveys, ground condition surveys or others, shall include a time frame for obtaining and confirming satisfaction with said consents/surveys.

Should any of the timings in the offer not be met, the seller reserves the right to withdraw from the transaction without liability for costs incurred by the other party. The seller, having sole discretion, may grant such extension of time if they are satisfied that all reasonable efforts are being made by the purchaser to meet the stated development programme.

The date of entry shall be no later than 10 working days following the last confirmation of satisfaction of consents/surveys.

Date for commencing works on site, in accordance with the planning permission granted, should be stated and must not exceed 52 weeks from the date of granting planning permission.
