

## **2 DUNDEE CENTRAL WATERFRONT - VARIOUS WORKS - NETWORK RAIL - BASIC ASSET PROTECTION AGREEMENT (AN21-2011)**

As part of the next stage of Dundee Central Waterfront Development, works will be required in the vicinity of Dock Street tunnel, including the demolition of Tayside House. In order to progress the works Network Rail require Dundee City Council to enter into a legal Basic Asset Protection Agreement for them to provide interface activities relating to the rail network, health and safety, industry standards, regulations and necessary approvals. This allows Network Rail to recognise the project and recharge Dundee City Council for agreed staff costs incurred in providing these services. The estimated cost for Network Rail providing these services for this project is £10,007.50. The Director of Finance advises that these costs can be met from the allowances within the Cities Growth Fund for 2010/11 and 2011/2012.

Committee's authority is sought for terms and conditions to be agreed with Network Rail by the Depute Chief Executive (Support Services) in consultation with the Director of Finance and to sign the Agreement on behalf of the Council.
