Stobswell Local Place Plan Vision and Structure Workshop 13th August 2024

15 people took part in the evening workshop held in Arthurstone Library as part of one of Stobswell Forum's monthly public meetings. Fionn Stevenson gave a presentation introducing a draft Vision Statement for discussion and improvement: *"To create a safe and thriving local neighbourhood for the people who live, work and visit Stobswell"*. This was discussed in the whole group and refined. The participants then broke out into four subgroups to discuss the potential structure of the Local Place Plan, including four potential themes and their position statements, which were refined during discussion and re-presented to the whole group. This helped to inform the development of the thematic structure and visioning for the Stobswell Local Place Plan.

Stobswell Local Place Plan Big Event 7th November 2024

Draft recommendations for the Stobswell Local Place Plan were prepared from the 21 previous local consultations that were analysed by Stobswell Forum. A public consultation on these took place at an open workshop held on November 7th 2024 in Arthurstone Library from 6.30pm – 8.30pm. This was promoted by 2000 flyers distributed to Stobswell Central households, 80 posters distributed to local businesses and public places, social media with 3,600 followers on Facebook, a Stobswell Forum e-bulletin reaching 350 people and a "human interest" article published in the local newspaper ahead of the event, and which also promoted it.

The event had the following format: 6.30pm - 6.45pm – presentation about the Draft Local Place Plan and Recommendations: "Our vision for the future" by the Chair for the evening 6.55pm - Description of the participation event 7pm – 8.20pm – Discussion of, and voting on, draft recommendations 8.20pm – Closing comments by the Chair 8.30pm – Finish of event

There were four themes under which the draft recommendations were grouped:

- Services and Facilities
- Better Connections
- Community and Culture
- Quality homes for all

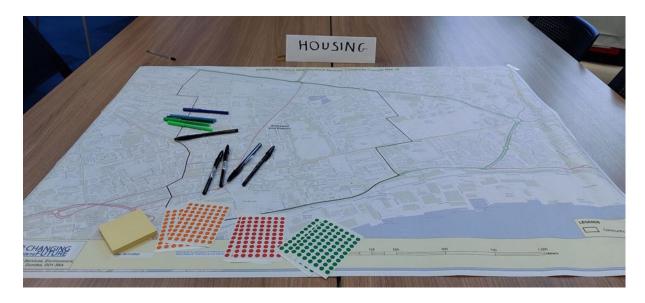

About 60 local people attended the event.

People helped themselves to food and drink, looked at each of the four information boards on each Local Place Plan theme with its draft recommendations, and socialized together.

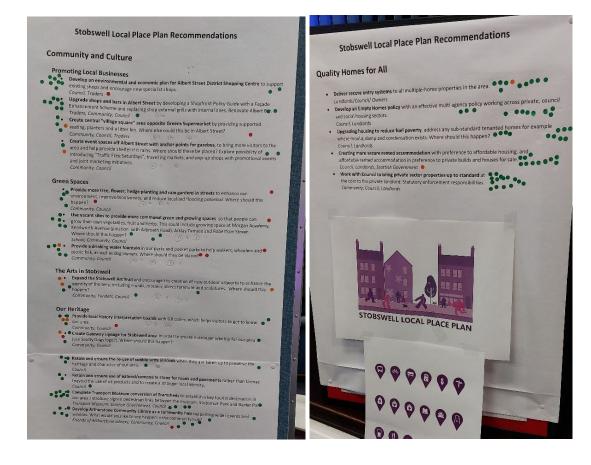

Participants rotated, spending about 20 minutes in a facilitated discussion with eachother on each theme table and then adding their coloured dot sticker votes to the draft recommendations on each of four A1 sheets listing them. The coloured dots were Red for "disagree", Amber for "do not feel strongly either way about this" and Green for "agree".

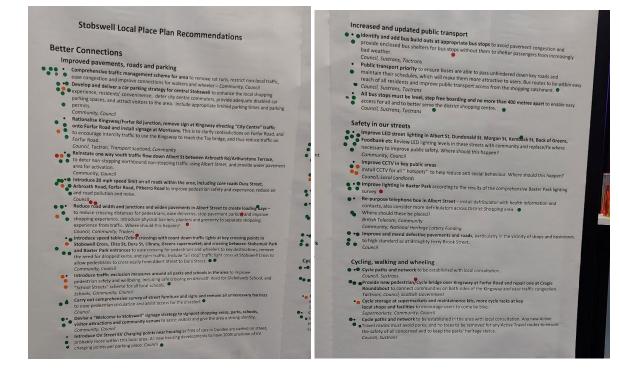

Participants also were given the opportunity to say what they thought of the recommendations by writing notes on Post-its and placing these on maps of the area placed on each theme table. Two volunteer facilitators from Stobswell Forum were at each theme table to help the discussion. Food and drink for the event were provided by four local traders and funded by Dundee City Council.

The photos below show the voting on the draft recommendations.

Stobswell Forum public meeting 30th January 2024

It was unanimously agreed by all Stobswell Forum Trustees and public members present to proceed with the draft plan to the statutory consulation and final public consultation stage from 3rd February – 3rd March 2025.

Stobswell Draft Local Place Plan Survey 3rd February – 3rd March 2025

Stobswell Forum set up a public online portal containing the Draft Stobswell Local Place Plan and Statement of Support documents, A Question and Answers document, as well as four online survey sections related to all the proposals in each of the main sections in the Plan. The public were encouraged to vote "approve", "disapprove" or "neutral", and to provide up to 30 words of commentary, for each proposal. The online survey ran alongside the Statutory Consultation period from **Monday 3rd February to Monday 3rd March 2025**.

The online portal and surveys were placed in the Stobswell Forum website and publicized every few days through the Stobswell Forum Facebook site (3,600 followers) and the Stobswell Forum email list (350 registered). They were also circulated through numerous other council, schools and community organisations and networks in the local area. Paper copies of the Plan were lodged in Arthurstone Community Library, the Boomerang Community Centre, Dundee International Women's Centre and The Morgan Academy. It was made clear on all the announcements that anyone needing assistance with responding to the consultation should contact Stobswell Forum, who would provide one-to-one assistance in person.

There were 34 responses for the Services and Facilities section, 35 for Better Connections, 30 for Community and Culture and 32 for Quality Homes. There were numerous comments made about the proposals in all sections, which have helped to refine the commentary in the final Local Place Plan proposals in the Proposals table at the end of the Plan document. There were, however, no new issues raised that might prevent proposals from happening, or which demanded new proposals. In general, there was overwhelming support for most of the proposals, as might be expected, given that the proposals were based on 21 previous consultations in the area over the last six years. The voting results of this final survey have been summarized below with key comments highlighted.

Services and Facilities

Play:

94% support more outdoor playspaces in Stobswell, providing they are well maintained with durable equipment.

100% support more public indoor play spaces, in consultation with young people and especially for the winter months

91% support providing more outdoor seating in streets and parks, providing this is monitored for anti-social behaviour

88% support upgrading MUGA in Baxter Park including changing rooms and roller rink, expand the 3G pitch for local teams, and provide toilets too.

94% support expanding DISC, including adult classes in the evenings, additional 3G pitch, gym expansion, social space for community, and good promotion of activities available.

Community Facilities:

97% support providing public toilets in parks and shops, with adequate maintenance. Baxter Park toilets need longer hours, often closed.

97% support developing a community banking hub on Albert Street or Arthurstone Library, which supports the cash economy in Stobswell. Maybe involve local firm NCR.

100% support rationalising euro bin locations on Stobswell's streets, providing good looking bin enclosures and more rubbish bins where needed. More recycling bins needed. More user education also needed.

97% support providing more litter bins on Albert Street, including more dog litter bins.

There was very strong support for all the proposals, particularly around providing additional playspaces, a banking hub, and providing public toilets. The strongest support was shown for providing more indoor public play spaces and improving the Euro bin situation on the streets of Stobswell. Concerns were voiced about the need for adequate maintenance of play spaces and to consult young people about what's needed for these.

Better Connections

Improved Pavements and Parking:

79% support developing a comprehensive traffic management scheme for Stobswell. Albert Street needs kerbside recycling facilities – only possible if less traffic and more room for this.

Trip hazards a concern. Too much traffic – need to avoid rat runs – emphasis should support pedestrians and wheelers.

60% support developing and delivering a car parking strategy for central Stobswell, with 31% neutral on this. Good car parking already exists. Parking permits needed for shop

owners/workers. 2 hour max car parking to stop commuter parking, but commuters are also visitors.

88% support the rationalization of the Kingway/Forfar Road junction, with signage to direct traffic away from Albert Street, towards the city centre via Kingsway.

65% support the reinstatement of one-way south traffic flow down Albert Street between Arbroath Road and Arthurstone Terrace. 15% neutral. 20% against. Concerns about access and diverting traffic to Dura Street or Morgan Street. Bollards needed at Arbroath Road junction.

85% support making all roads 20 mph. Enforcement and traffic calming needed.

71% support a reduction in road widths and junctions to allow wider pavements in Albert Street. Pavement route from Gallacher Retail park up Princes Street to Albert Street is not very safe – needs more crossing points.

88% support speed tables/zebra crossing with count down lights at key crossing points in Stobswell.

Need a crossing between Stobsmuir Park and Baxter Park, especially when Transport Museum opens.

68% support traffic exclusion around all parks and schools in the area. 26% neutral. 6% against. Glebelands School situation is a priority. Try another entrance to Glebelands from Watson Street?

Signpost better routes to it. Education of parents needed too.

81% support a comprehensive survey of street furniture and signs to remove barriers for pedestrians and wheelers. More drop kerbs needed for all wheelers.

85% support the development of a "Welcome to Stobswell" signage strategy. Use lighting like Exchange Street, use local artists, tasteful templates for shop signage needed.

61% support introducing EV charging points near House near housing

with 30% neutral on this. Housing developments should be futureproofed by developments being required to incorporate these, measures taken to prevent commuters using these facilities and they should be provided in tenemental areas as well.

Increased and Updated Public Transport:

79% support additional bus build out and shelters, noting that existing shelters have been removed elsewhere due to vandalism. A ramp system at bus stops would avoid the need for build outs, solar panels on the roof would power the timetables, use of modern materials as alternatives to glass, possible introduction of QR codes for information.

79% support public transport priority, with a need for a long-term view and park-and-ride schemes with public transport links. There may be no room to put in priority bus lanes. 66% support all bus stops being level with step free boarding with 31% neutral on this.

Safety in our Streets:

Safety in our Streets:

71% support improved LED street lighting, with more lighting needed on side streets to increase the feeling of safety. This will encourage local people to spend more time within outdoor spaces.

82% support improved CCTV in key public areas to help reduce antisocial behaviour, and extend to Craigie Street including the car park at Kemback Street, Arbroath Road, and Morgan Street, where street workers stand.

73% support improved lighting in Baxter Park, with various comments about how the lighting should be handled sensitively in relation to wildlife, light pollution and heritage. New technologies could be used to ensure that the lights are motion activated and only switch on when folk pass and not go on all the time.

89% support repurposing the telephone box on Albert Street and installing a defibrillator, which must be maintained.

97% support improving and mending defective pavements and roads to a high standard, as in streets in Broughty Ferry.

Cycling and Wheeling:

72% support provision of a new pedestrian cycle bridge over the Kingsway at Forfar Road and repairing the one at Craigie roundabout with 22% neutral, noting that existing crossing times for pedestrians and wheelers are very long. The light controlled crossing to the west is good - a bridge may be expensive and can also be a barrier for people with disabilities. 59% support cycle storage at supermarkets with maintenance kits and more cycle racks at local shops to encourage bike use, with 31% neutral. Traffic and gradient is the barrier to cycling, not storage. Make use of disused coal/bin stores in tenemental areas for storage. 81% support establishing cycle paths and network with local consultation, whilst avoiding parks and trees to be protected. Better use to be made of wide pavements where they already exist eg Arbroath Road. Cycling on the road is dangerous as cars passed too close and fast.

There was very strong support for speed tables, zebra crossings and countdown lights at key crossing points, as well as for a rationalization of the Forfar Road/Kingsway junction, along with the re-use of the telephone box on Albert Street to provide a defribulator. The strongest support was shown for mending the roads and pavements to bring them up to a high standard. Concerns were voiced about CCTV surveillance, where is the footage to be stored, who has access to it and for how long, as well as maintenance issues for the defribulator.

Community and Culture

Promoting Local Businesses:

86% support developing an environmental and economic plan for Albert Street District Shopping centre. More eating places wanted.

74% support upgrading shops and bar facades. Encourage smoking spaces at the back of the pubs, not on the pavement.

82% support creating a "village square" area opposite Greens Supermarket. Need to work with land owners.

81% support creating event spaces off Albert Street. Pedestrianise Albert Street, "Traffic Free Saturday", involve local church halls for events

Green Spaces:

86% support providing more greenery. 86% support using vacant sites and backcourts to provide communal green space. Maintenance needed. 71% support provision of public drinking fountains in parks

71% support provision of public drinking fountains in parks.

Arts and Heritage:

83% support expansion of Stobswell Arts Trail

89% support Transport Museum conversion of Tramsheds. Combine Arts and Nature trails, connect to Museum. Better signage to museum and better transportation.

86% support development of Arthurstone Library into a Community Hub. More adult facilities/events in evenings – lots already for OAPs and Children.

86% support provision of local history interpretation boards. Link with Art and Natural trail. Maintenance needed for Mary Shelley steps, Baffin St.

76% support provision of gateway signage for Stobswell. Tasteful signage – not garish.92% support retention and re-use of cobble setts in roads to preserve heritage.

85% support retention and re-use of natural/composite stone for roads and pavements.

There was very strong support for all the proposals related to supporting local businesses, providing green spaces and further improving the arts and heritage aspects of Stobswell. People are particularly keen to see a new plan developed for Albert Street District Shopping Centre to encourage greater diversity of businesses and eating places. The strongest support was shown for re-using cobble setts and seeing the new Transport Museum get built – it already has planning permission – ensuring that it is well connected with signage, walking trails and public transport.

Concerns were voiced about the need for ensured maintenance of green spaces. Less support was offered for public drinking fountains, gateway signage to Stobswell and the shops/bars façade scheme, although still strong.

Quality Homes for All

Empty Homes Policy:

83% of those who responded were strongly in favour of a multi-agency approach to the issue to reduce empty homes across private, social and council estates.

Upgrade Housing to Reduce Fuel Poverty:

90% of those who responded wanted to to see existing housing retrofitted to improve housing conditions and reduce fuel poverty. Avoid expensive electric heating. Compel landlords to keep their buildings in good repair. Better promotion of advice services needed.

90% of respondents supported the council working to refurbish existing private housing at the expense of the current owners. Create toolkits to help private tenants navigate their options.

94% of people who completed the survey wanted to see universal delivery of security entry systems. Need to negotiate with owner-occupiers, though.

Creation of more Secure Affordable Rented Accommodation:

83% of respondents wanted to see more affordable rented accommodation created in preference to more new private housing. Mixed tenure development is desirable, however.

There was very strong support for upgrading existing housing in the Stobswell Central area as a priority. The strongest support is for the provision of secure door entry systems for all. Concerns were voiced about how to negotiate housing upgrades, repairs work and the provision of secure door entry systems with owner occupiers. A well publicised private tenant toolkit was suggested to help tenants navigate the complex housing management system that exists.

Stobswell Forum has taken note of all commentary and the voting results related to all the consultation surveys, workshops and events described above. It has endeavored to include these where relevant in the Stobswell Local Place Plan as it sits alongside the new Dundee Local Development Plan. As the Local Place Plans are primarily related to physical land use, it has not been possible to consider all social and economic factors – these should be addressed by the wider Community Locality Plan for Maryfield that is delivered by Dundee City Council in conjunction with the local community.

Local Place Plan Guidance and legislation lays responsibility for the final content and form of the LPP on the Community Body (CB) preparing the plan, or those it has delegated responsibility to, as a group in a recognised representative role on behalf of the community. Stobswell Forum therefore has a duty to take a position on proposals where there may be disagreement within the community. Every effort has been taken to arrive at a reasonable position that tried to achieve win-win solutions where possible to navigate disagreement. We acknowledge, however, that the Local Authority is the final arbiter in these decisions, and that as part of the Development Plan Scheme there will be further opportunities for disagreement within the community to be expressed during the eventual 3-month consultation on the Proposed Plan.

Appendix Two Statutory Information Notice and Consultation Records

The Statutory Consultation for the Draft Stobswell Local Place Plan was carried out in accordance with requirements set down in the <u>Planning Circular 1/2022</u>: Local Place Plans guidance. It ran from 3^{rd} February – 3^{rd} March 2025.

Stobswell Draft Local Place Plan 2025 Statutory Consultation

Information Notice to Local Councillors and Community Councils/NRS groups adjoining Maryfield Ward

The community of Stobswell in association with Stobswell Forum, as a recognised Neighbourhood Representative Structure (NRS) in Dundee, has produced a draft Stobswell Local Place Plan – Dundee's first one.

The Plan contains our Vision and Proposed Actions for the Stobswell Central area - a geographical area defined by Dundee City Council Map 16, as below.

It reflects our community aspirations and has been developed from significant previous community consultation over six years, culminating with extensive community engagement in 2024 to bring all the calls for action from these consultations together.

Our purposes in preparing this plan are:

- To guide planning policy and decision-making, public services and investment by Dundee Council, Community Planning Partners, the Scottish Government and other public agencies.
- To provide Stobswell Forum with a point of reference to respond to planning applications.
- To guide our own community action and resourcing, including prioritising future spend by Stobswell Forum and exploring its potential to have greater positive community impact.

• To support funding bids for initiatives referred to in the plan, whether they are led by the local community, public bodies or others.

The key proposals for this Plan include:

- An improved Albert Street District Shopping area
- A local traffic and car parking strategy
- Safer streets
- More greenery and art in Stobswell streets
- A community bank, and a community hub in Arthurstone Library
- Quality homes for all

This plan is now subject to a statutory 28 day consultation period with community councils/NRS adjoining Maryfield Ward and Maryfield Ward local Councillors. This period runs from Monday 3rd February to Monday 3rd March 2025.

We welcome your particular comments on the proposals in the Plan which can be read via this <u>link</u> and also attached in this correspondence. Can we please ask you not to complete the anonymous online public survey on this link, but to email your individual reply to <u>info@stobswell.org.uk</u>, confirming receipt of this consultation. If you have any other questions or requirements, please contact <u>info@stobswell.org.uk</u>

We look forward to hearing from you.

Stobswell Draft Local Place Plan 2025 Questions and Answers

Thank you for taking the time to fill out our survey. Please find below a short Q&A section anticipating any queries you may have.

What is the Information Notice period?

The Information Notice period is a statutory requirement for a minimum 28-day period where local councillors and community councils adjacent to the boundary of the Local Place Plan (LLP) have a chance to make representations about the draft LPP. We have taken the decision to go beyond this statutory requirement and use this period to also consult the whole community on the proposals that have been developed.

What will happen to the comments I submit?

All comments submitted as a citizen or from a community group will be read and assessed by the Stobswell Forum Working Group who will then decide how best to modify the draft proposals before final submission.

Once validated, the final submission will be placed on a public register which everyone can access.

Regardless of any changes that the Working Group makes in light of representations submitted through this survey, all responses submitted as part of this survey (including any comments that disagree or object to the proposals) will be submitted alongside the LPP for the planning authority to assess in full.

The final decision whether to include LPP proposals in local development planning are for Local Authority to decide. This will be done as part of the process of forming the next Dundee Local Development Plan, which is currently underway. Ultimately, it is for the Local Authority to decide up what weight to place on the representations and comments made by the community during this Information Notice period.

I want to comment on wider social issues, but don't see a way to do this?

Ideas and initiatives that are otherwise suitable for inclusion in a Community Action Plan but not related to development, land or buildings (or otherwise not controlled by the planning system) are being dealt with by the <u>Maryfield Locality Community Plan 2022-2027</u>. Examples might include staring a youth group, addressing litter issues, or dealing with drug use, none of which are controlled by the planning system.

To read more about the difference between a Local Place Plan and a Community Action Plan, please read the Overview section of the <u>PAS Local Place Guide</u>.

What is the timeline for this statutory consultation, and for final submission?

• The Information Notice period (statutory consultation) is required to last 28 days and will run from Monday 3rd February until Monday 3rd March 2025.

• After reviewing all responses, we aim to submit the final report for validation by the end of March 2025.

Will development proposals in the Local Place Plan actually be delivered?

Proposals for future development found in the LPP may still not be delivered even if they are included in the statutory Dundee Local Development Plan. Many other factors can influence delivery: legal ownership, feasibility, funding, wider economics, detailed design being just a few of these.

Additionally, many external factors (economics, climate change) could change over the proposed 10-year lifespan of the next Dundee Local Development Plan.

Who makes the final decision as to whether any of these proposals are accepted into the Local Development Plan?

In law, the local planning authority has the final say as to which of the proposals submitted in a LPP are included in the Dundee Local Development Plan. The planning authority must however give an explanation of why they have made these decisions and make that publicly available.

That explanation will likely be issued alongside the draft Proposed Plan for Dundee, when that is made public.

When will we find out whether the proposals in the Local Place Plan have been accepted for inclusion in the Dundee Local Development Plan?

When the Proposed Dundee Local Development Plan is placed before committee. The current timeframes for creating the Proposed Dundee Local Development Plan is <u>here.</u>

Will there be an opportunity to respond to the decisions made about the LPP proposals by the local planning authority?

Yes, there will be an opportunity to comment on the Proposed Dundee Local Development Plan during a 3-month consultation period that will occur once the Proposed Dundee Development Plan has been approved by committee.

Hang on, this document doesn't contain all the information that is required for a Local Place Plan to be validated by the Local Authority. How come?

All necessary information will be provided in this regard in the final submission to the local authority. We have not included it in this draft to reduce the amount of information that citizens need to absorb to be able to comment on the core proposals themselves.

Re: Draft Stobswell Local Place Plan - Statutory Consultation -please respond by email by 3rd March

Mon 3 Mar, 22:56 (4 days ago) Hi Fionn

I've read through the place plan in more detail and it's laudable in its aims to improve the area for all. This is a useful document to have in place, being a kind of manifesto, if you like, for Stobswell. There are some areas in terms of the practical suggestions where I might need some persuading such as the removal of Northbound traffic on Albert Street for example. I would need to hear of any potential unintended consequences as a result of this but overall as I said it's all good stuff and well done for all the time you've spent on it.

There is only one small detail which I thought was incorrect, that being the reference to a façade improvement scheme in the 1980's. I believe this was actually around 2007 which is much more recent.

Regards

Ken

to me

Hi Fionn,

Hope you're well.

Thank you for the opportunity to review your local place plan. The content of the plan is excellent and understandable, goals are clear and the contribution of the community evident.

I did notice a couple of more grammar/formatting points that did not change the meaning at all, however I would be glad (if it would be of use to you) to proof read it as someone who hasn't read it lots and lots but also understands the planning context- I know how repeated readings can make it all blur into one a bit! Absolutely no worries if you don't need this.

Kind regards,

Kosi, Planning Officer, City Centre and Harbour Community Council
