

Tennis Court

Play Area

Bin lorries cause congestion/block staff from getting into car park. Need to coordinate bin collection times outwith staff entry times.

FS

Enhanced crossing point (if allowed with roads authority) - potential ground art

School Zone signage - potential for art based to make more appealing

Retractable barriers eliminate traffic within school zone hours, whilst potentially eliminating need for anti-parking bollards, boulders, etc

Railing-mounted artworks provide year-round colour and interest, creating a welcoming environment

Barriers prevent unauthorised vehicles. Operated remotely from reception or with fob/code.

Hedging on school side of railings along with trees and bed planting provide wind and rain shelter, whilst making school more attractive and giving ecological benefits.

Widen pavement to relieve pedestrian congestion

Shelter with seating for P3-7 parents and school bus stop (alternative location in horseshoe green area). Green roof alleviates flooding.

Waiting shelters provide covered seating for P1 parents (Positions TBC)

Additional cycle/scooter shelter

FORTHILL ROAD

BUS STOP

Artworks/play features/nature features lend colour, interest and ecological benefits

Planted rain garden area(s) absorb flood water

Raised walkways create dry paths and areas for seating

Outdoor learning/play zone

Coach

Coach

Mixture of bollards & natural boulders form barriers to parking

Disabled Parking (potential visitor parking also?)

Waiting shelters provide covered seating for P2 parents (Positions TBC)

Additional cycle/scooter shelter
