

Committee Report No: 18-2021

Document Title: Dundee City Council's Biodiversity Action Plan Annual Report 2020

Document Type: Other

New/Existing: New

Period Covered: 01/01/2020 - 31/12/2020

Document Description:

The Nature Conservation (Scotland) Act 2004 places a duty on public bodies 'to further the conservation of biodiversity so far as is consistent with the proper exercise of those functions.' The production of a Biodiversity Action Plan for Dundee in January of 2020 was a major step forward in setting out how Dundee City Council will fulfil this duty and how working in partnership with other local organisations will achieve the plan's vision of 'Working together to protect, enhance and raise awareness of biodiversity in Dundee for the benefit of all'. It has been agreed that progress on the Biodiversity Action Plan will be reported annually, with this being the first such report.

Intended Outcome:

To provide an update to elected members on the progress towards the actions within Dundee's Biodiversity Action Plan for 2020.

How will the proposal be monitored?:

The Local Biodiversity Plan highlights a wide range of actions for further development. An annual report will be produced for consideration by elected members which details progress against each of the specific actions listed.

D. Corporate Risk Impacts

Corporate Risk Implications:

The risk implications associated with the subject matter of this report are 'business as normal' risks. The subject matter is routine and has happened many times before without significant loss. There is comfort that the risks inherent within the activity are either transferred to another party, shared equally and fairly between the Council and another party or are negligible.
