

Green Network Link	Description/Function of Link	Opportunity
(a) Ardler Link	Green assets including SUDS, play space and green space provide 'stepping stones' between strategic green network areas at the Western Gateway and Dighty and Fithie Corridor	<ol style="list-style-type: none"> 1. Protect and diversify functions of existing green assets. For example increase biodiversity interest. 2. Create additional woodland at appropriate locations to link existing woodland at Templeton / Downfield Golf Course to wider countryside. 3. Improve the biodiversity interest of SUDS. 4. Control of Giant Hogweed. 5. Re-route the Green Circular through greenspace / Consider countryside route in Angus.
(b) Miley/South Road Link	Active travel route linking green assets including The Miley and South Road Park through greenways and core paths.	<ol style="list-style-type: none"> 1. Protect and maintain connectivity. 2. Fix broken links with the opening of Bank Street in Lochee from The Miley to South Road Park (Sustrans application submitted by Transportation for work to be undertaken in 2015). 3. Raise community awareness of The Miley . 4. Consult internal Green Flag Action Plan for opportunities within South Road park. 5. Improve functionality of green spaces eg informal play, green exercise opportunities. 6. Introduce management regime for Technology Park Woodlands.
(c) Balgay Link	Active travel route linking green assets including Balgay Park, woodland at Ninewells Hospital and Riverside Nature Park.	<ol style="list-style-type: none"> 1. Protect and maintain connectivity of link through greenways and core paths. 2. Consult Green Flag Action Plans for opportunities within Balgay Park and Riverside Nature Park. 3. Partnership projects with NHS Tayside to develop Ninewells Woodlands.

Green Network Link	Description/Function of Link	Opportunity
(d) Law Link	Existing green assets including The Miley, The Law and Dudhope Park provide 'stepping stones' between strategic green network assets in north (the Dighty) and new green network assets to be created as part of the Dundee Waterfront regeneration.	<ol style="list-style-type: none"> 1. Improve connectivity from the central waterfront new public green and blue spaces to The Law- <ul style="list-style-type: none"> • Plant green corridors and street trees along route between the Law and the Waterfront e.g. along Marketgait and Constitution Road (in front of old college building). • Signage and waymarking city centre to The Law. 2. Raise awareness of City's green network assets. 3. Improve connectivity and active travel routes through core paths and greenways. 4. Consult internal Green Flag Action Plan for opportunities within Dudhope Park. 5. Consult Law Masterplan for opportunities on the Law. 6. Develop pocket park on appropriate site in Blackness Industrial Estate.
(e) Baxter Link	Existing green assets including Caird Park, Eastern Cemetery and Baxter Park provide 'stepping stones' between green network assets in the north (The Dighty) and green assets along the Tay Corridor Green Network. Established Greenways and core paths provide connectivity.	<ol style="list-style-type: none"> 1. Development of the Regional Performance Centre within Caird Park offers an opportunity to improve accessibility/ connectivity to the park. 2. Protect and maintain locally important nature conservation sites (SINC's) along Dundee Road West/East Dock Street/ Broughty Ferry Road and strengthen the nature conservation interest of this link around Dundee Port. 3. Additional street trees along Pitkerro Road - fill in gaps. 4. Access aspirational community cycle routes across Kingsway. 5. Consult internal Green Flag Action Plans for opportunities within Caird, Baxter and Stobsmuir Parks and Eastern Cemetery.
(f) Dawson Link	Existing green assets including Claypotts Park and Dawson Park provide 'stepping stones' between green network assets in the north (The Dighty) and green assets along the Tay Corridor Green Network.	<ol style="list-style-type: none"> 1. Consult internal Green Flag Action Plan for opportunities within Dawson Park. 2. Formalise access link between Dighty down to Arbroath Road/ Strathern Road continuing to Grassy Beach/Stannergate, taking in Dundee/Angus College.
