

Policy Statement

McLaughlin & Harvey (McL&H) aims to provide its stakeholders with a dedicated and professional liaison service which listens to the needs of our stakeholders, provides ongoing opportunities for consultation and feedback and delivers prompt and satisfactory resolution to issues as they arise.

Introduction

McL&H wishes to put stakeholder needs at the very heart of the way we develop and enhance our liaison services. Feedback is part of our ongoing consultation process which we will use to learn and continuously improve our liaison services. The document describes the procedure and what you can expect from us should you make a complaint.

What is a complaint?

An expression of dissatisfaction by one or more people about the standard of service provided by the Broughty Ferry Flood Prevention Scheme Project Team. We encourage stakeholders to get in touch and talk to us when they have any concerns. We have a two-stage complaints procedure and we will always try to deal with your complaint quickly. We will acknowledge your complaint within 3 working days and will provide you with our decision as soon as possible and in no more than 20 working days where practical. But, if a more detailed investigation is required, we will tell you and keep you updated on our progress.
